(5) Make rules for the proper government of all inspectors, officers, employees, agents and servants who may be employed by the Department of Agriculture;

(10) The Department of Agriculture may issue an administrative inspection warrant for the purpose of conducting an inspection of, and seizure of property at, any location within the State where race horses are stabled or otherwise located, except those horses stabled or otherwise located at facilities licensed pursuant to § 4805(b)(13) of Title 29, upon proper application for an administrative warrant by the Harness Racing Commission or the Thoroughbred Racing Commission. The issuance of an administrative inspection warrant by the Secretary of Agriculture shall be for the sole purpose of determining whether a violation has occurred pursuant to Chapter 100 or 101 of this title or the regulations promulgated thereunder.

a. An application for an administrative inspection warrant shall:

1. Specifically identify the premises and property to be inspected and shall be limited to the stabling area where racehorses are housed, specifically the stalls, aisleways, feed room, tack room, tack trunks, and other common areas in the shedrow specified in the application. An administrative warrant shall not provide the authority to permit the inspection of dwelling areas and out buildings where racehorses are not housed;

2. Specifically state the items or types of items to be seized if found;

6. Direct that the warrant shall only be served and executed during normal business hours and shall be returned as completed to the Secretary of Agriculture as soon as immediately practicable. Normal business hours shall mean between 6:00 a.m. and 6:00 p.m. Monday through Sunday.

b. Proper application for an administrative inspection warrant shall be based on a reasonable articulable suspicion that:

1. “Blood-doping”—the process where prohibited substances which abnormally enhance oxygenation of equine body tissue are being, or have been, carried within the body of a race horse—has occurred; or

2. A Class 1 or Class 2 drug is being, or has been, carried in the body of a race horse in violation of Chapter 100 or 101 of this title or the regulations promulgated thereunder.

Unauthorized possession of a hypodermic needle, syringe or injectable of any kind on the premises of a facility licensed pursuant to § 4805(b)(13) of Title 29 shall constitute reasonable articulable suspicion that blood-doping has occurred or a Class 1 or Class 2 drug is being, or has been, carried in the body of a race horse. Reasonable articulable suspicion exists where the totality of the circumstances if corroborated, indicates that the information provided is reliable. Reliability of the information is based on the specificity of the facts alleged and the degree to which the information is corroborated by other independent evidence or information.

c. Service of an administrative inspection warrant shall only be made upon a person who has reached the age of 18 at the time the warrant was served and who has authority to accept service of the warrant by virtue of such person’s relationship to the property as the owner of the premises, a family member of the owner of the premises, the lessor of the premises who is the subject of the administrative inspection warrant, the operator or manager of the premises, or any other person authorized by the owner or operator of the premises to accept service of an administrative inspection warrant.

A written inventory of any property seized as a result of the execution of the administrative inspection warrant shall accompany the return warrant and shall affirm that the inventory was made in the presence of the person executing the warrant and the person(s) from whom the property was seized.

e. No inspection authorized pursuant to this section shall be the basis for criminal prosecution.

f. An administrative inspection warrant shall not be required where a licensee who is the subject of an inspection consents to the inspection of the licensee’s property. Consent to the inspection of the property shall only be valid where the licensee who is the subject of the inspection has been advised that the licensee does not have to consent to an inspection without being presented with an administrative warrant issued by the Secretary of Agriculture.

g. In the absence of a finding that a violation under Chapter 100 or 101 of this title or the regulations promulgated thereunder has occurred, any property seized pursuant to the execution of the administrative inspection warrant shall be returned to the person from whom the property was seized within 30 days from the date of execution of the warrant.

(a) An Agricultural Commodity Advisory Board is hereby created for the producers of each agricultural commodity who file with the Secretary a petition requesting that the producers of such commodity be subjected to the sections of this chapter. The petition is to be signed by at least 100 producers or at least 10 percent of the producers of such commodity whichever is less. Such petition shall be certified by at least 2 producers to have been signed only by producers of the commodity involved.

(b) Upon petition of the required number of producers, the Secretary shall, after consultation with the various agricultural or commodity organizations petitioning for a referendum, determine the size of the Agricultural Commodity Advisory Board and distribution of the Board membership. The Advisory Board may designate agricultural industry, Department of Agriculture and University of Delaware personnel, either by name or by office, to serve as consultants to the Board.

(c) Within 30 days after the filing of the petition by the required number of the producers, the Secretary shall appoint a nominating committee of 5 persons from the involved agricultural or commodity organizations who shall, within 60 days from the filing of such petition, nominate at least 2 candidates for each Advisory Board position and certify the names of such nominees to the Secretary. Nominees shall be selected with a view to establishing a fair representation of all producers throughout the area to be organized, which shall comprise the entire State unless otherwise determined by the Secretary after consultation with agricultural and commodity organizations, in which event the Secretary shall define such area following county lines. Upon receipt of the nominations, the Secretary shall promptly arrange an election to be held at places designated by the Secretary, reasonably convenient to all producers in the organized area, and give at least 14 days' notice of such election in at least 1 newspaper having a general circulation in the organized area. Ballots setting forth the names of nominated candidates and providing for write-in candidates shall be made available at all polling places. Only producers of the particular commodity shall be qualified to elect members of that commodity's Advisory Board. Polling procedures shall be established to avoid voting by others than those qualified to vote. An impartial committee appointed by the Secretary shall tabulate the votes and the candidates receiving the most votes shall be declared elected to the first Advisory Board. In each calendar year following the one in which the first Board is elected, candidates shall be selected and an election shall be held to elect a successor or successors to the Board member or members whose term or terms expire in that year. Nominations shall be made and the elections shall be held in the same manner as prescribed for the first Board except that the choice of nominating committee members, the time of nominations and the time and place of elections shall be fixed by the Secretary with the consent of the Advisory Board.

(d) At the first meeting of the first Advisory Board the Secretary shall determine by lot one third of the Board members whose terms shall expire June 30 in the calendar year following the year of the first election, one third of the Board members whose terms shall expire June 30 in the second calendar year and the remaining Board members whose terms shall expire June 30 in the third calendar year. In the event the Secretary has designated specific areas for representation on the Advisory Board, the terms of Board members in any one area shall not expire in the same year. All elected successor Board members shall be elected for 3-year terms and each shall serve until the member's successor is elected and qualified. No Board member shall succeed himself or herself after serving 2 full terms. In the event a Board member ceases to have any of the qualifications herein established, the member's office shall be deemed vacant. Any interim vacancy on the Board shall be filled by appointment of the Board for the remainder of the term vacated.

(e) The Secretary of Agriculture shall serve as secretary of the Advisory Board without vote. The Board shall elect, from its own membership, a chairperson, and a vice chairperson who shall act in the absence of the chairperson, and such other officers as the Board may deem appropriate. The terms of such officers shall expire on June 30 of each year and their successors shall be elected at the first meeting following that date.

If changes or additions of substance are made, the Advisory Board and the Secretary shall hold like public hearings on the amended or supplemented development order.

(c) Following the hearing, or hearings, the Advisory Board and Secretary shall conduct a referendum on the proposed final development order. At least 14 days' notice of the time and places of such referendum shall be published in a legal newspaper of general circulation in each county affected. In addition, direct written notice thereof shall likewise be given to each county extension office in any county involved in the referendum. Such notice shall include details of the development order to afford all producers access to complete information about the development order. The development order shall become effective if it is approved by a majority of those voting in the referendum, and such order shall be applicable only to those producers of the subject commodity within the area of the State organized pursuant to this chapter. Upon completion of the referendum, the Secretary shall make findings and issue an appropriate order based on said findings.

Delaware Agricultural Production Insurance Assistance Program

This chapter shall be known as the “Delaware Agricultural Production Insurance Assistance Program.”

(84 Del. Laws, c. 318, § 1.)

§ 802. Purpose.

It is the declared purpose of this Program to support, encourage, and promote agriculture production in Delaware as a valued and viable occupation. Promoting and supporting the State’s agricultural producers is essential to maintaining agriculture as a viable industry and important contributor to Delaware’s economy. To ensure long-term agricultural production in Delaware it is necessary to adopt and implement an effective permanent program for yield and revenue insurance assistance for Delaware agricultural producers. It is further recognized that a need exists to create sufficient economic incentives to encourage agricultural production given its vulnerability to weather, environmental and economic conditions that can result in low crop yields, and insufficient revenue, making farming unprofitable and unsustainable. It is the purpose and intent of the General Assembly to provide for the creation of a permanent yield and revenue insurance assistance program to serve the long-term needs of producers in Delaware.

(e) The Department must keep all records, related to the Program, including all records and information received from the Federal Crop Insurance Corporation

(84 Del. Laws, c. 318, § 1.)

§ 805. Premium subsidy and eligibility requirements.

(a) Any eligible producer who has already purchased or who shall purchase, prior to the appropriate sales closing date, a qualifying policy in excess of the catastrophic risk protection level of coverage, shall be eligible to receive a State subsidy of up to 30% of the eligible producers’ premium cost, up to a maximum of \$10 per acre, under this Program.

(84 Del. Laws, c. 318, § 1.)

- (1) The number of participating farmers.
- (2) A list of all approved participating insurance providers.
- (3) The total amount of acreage in the State, broken down by county, that is insured under the Program.
- (4) The total amount of net book premium charged to the eligible farmers participating in the Program.

Part I Department of Agriculture

Chapter 9 Delaware Agricultural Lands Preservation Act

Subchapter I Establishment of Foundation, Advisory Boards and Fund

§ 901. Purpose, policy and intent.

It is the declared policy of the State to conserve, protect and encourage improvement of agricultural lands within the State for the production of food and other agricultural products. It is also the declared policy of the State to encourage, promote and protect farming as a valued occupation. Preservation of the State's farmlands and forestlands is considered essential to maintaining agriculture as a viable industry and important contributor to Delaware's economy. It is a finding of the General Assembly that valuable and irreplaceable farmlands and forestlands are being lost due to nonagricultural development pressures and that, to insure the long-term utilization of the State's most viable agricultural lands, it is necessary to adopt and implement an effective program and infrastructure for permanent agricultural land preservation. To the maximum extent possible, State agency action, particularly action involving the exercise of powers of eminent domain, which has an adverse impact on viable agricultural lands, should be avoided or minimized. It is further recognized that a need exists to create sufficient economic incentives and benefits to encourage agricultural landowners to voluntarily place viable agricultural lands under protective restrictions through the creation of and participation in agricultural preservation districts and the sale of development rights. It is the purpose and intent of the General Assembly to provide for the creation of permanent agricultural areas comprised of viable farmlands and forestlands to serve the long-term needs of the agricultural community and the citizens of the State. It shall be a priority to create agricultural preservation districts and purchase development rights in those areas located near and adjacent to designated growth zones.

(b) The Foundation shall be authorized to enter into installment purchase agreements and to execute all documents necessary or desirable thereto to qualify such agreements for exemption from federal or state taxation to the extent permitted by the tax laws. Pursuant to the installment purchase agreements, the Foundation shall acquire preservation easements, establish special accounts for each agreement from which principal and interest payments shall be made and deposit into such special accounts amounts necessary to fund the agreements. The special accounts may be administered by a bank, escrow agent or other qualified paying agent approved by the Foundation and the deposited funds may only be invested in a manner approved by the Secretary of Finance. The amounts to be paid under an agreement shall not exceed the amounts available from the special account related thereto, including earnings thereon. The Foundation may, under the terms of the agreement, impose on the seller through direct charge or installment payment reduction the costs associated with the agreement and the special account. The Foundation is authorized to use all funds appropriated to it to acquire preservation easements through installment purchase agreements.

(68 Del. Laws, c. 118, § 2; 70 Del. Laws, c. 570, § 1.)

§ 914. Criteria for eligibility and evaluation.

(a) In order for the Foundation to acquire an agricultural lands preservation easement it shall be required that:

(1) The grantor of the preservation easement has fee simple title to the real property and conveys the easement free and clear of all liens and encumbrances; and

(2) The preservation easement is granted in perpetuity in a form acceptable to the Foundation and includes the restrictions set forth in § 909 of this title and such other terms and conditions as specified by the Foundation.

(b) In reviewing applications for the conveyance of agricultural lands preservation easements the Foundation shall consider:

(1) The criteria set forth in § 908(b) of this title; and

(2) The relative agricultural value of the lands and potential for conversion to nonagricultural use; and

(3) The relative cost of acquiring the easement giving due consideration to the extent to which an applicant is willing to discount the sale price below the Foundation's appraised easement value.

(c) The Foundation may adopt, after public hearing, a system for scoring, ranking and prioritizing consideration of applications submitted for the conveyance of agricultural lands preservation easements. Under any system adopted for consideration of applications submitted for the conveyance of agricultural lands preservation easements, the Foundation shall establish by regulation after public hearing means of creating a priority for acquisition of agricultural lands preservation easements in designated areas which are near or adjacent to growth zones, or border in part the growth zones.

(68 Del. Laws, c. 118, § 2; 71 Del. Laws, c. 378, § 97.)

§ 915. Procedure for acquisition easements.

The Foundation shall adopt, after public hearing, a uniform procedure for acquiring agricultural lands preservation easements. The procedure adopted by the Foundation may incorporate bidding and/or negotiation as part of the procurement process. The Foundation shall be entitled to establish separate methods or incentives to facilitate the acquisition of agricultural lands preservation easements in designated areas which are near or adjacent to growth zones, or border in part the growth zones.

(68 Del. Laws, c. 118, § 2; 71 Del. Laws, c. 378, § 96.)

§ 916. Valuation of easements.

(a) The maximum value of any preservation easement to be purchased shall be the difference between the fair market value of the land under its agricultural zoning designation and the agricultural value of the land. The fair market value of the land is the price as of the valuation date for the highest and best use of the property which a vendor, willing but not obligated to sell, would accept for the property, and which a purchaser, willing but not obligated to buy, would pay for the property if the property was not subject to any restriction imposed under this chapter. The agricultural value of land is the price as of the valuation date which a vendor, willing but not obligated to buy, would pay for the property as a farm unit, to be used for agricultural purposes. The value of the preservation easement shall be determined as of the date the application for conveyance of the preservation easement is received by the Foundation. The value shall be determined by the Foundation based on appraisal by an appraiser selected by the Foundation, which appraisal shall be provided to the owner. The owner shall be entitled to have an appraisal performed by a qualified appraiser and submit such appraisal to the Foundation for consideration. The value of the easement shall be determined by an appraisal on the entire contiguous acreage, less 1 acre per each dwelling structure; provided, however, the entire contiguous acreage, including the 1 acre per dwelling structure, is considered subject to the preservation easement restrictions.

(b) If the owner and Foundation do not agree on the value of the easement, as determined by appraisal, the owner shall be entitled to withdraw the application for conveyance without prejudice to any submission of an application in the future.

(68 Del. Laws, c. 118, § 2.)

§ 917. Termination of easement.

(a) *Legislative intent.* — It is the intent of the General Assembly that the preservation easements purchased under this subchapter be held by the Foundation for as long as profitable farming is feasible on the land subject to the easement but at a minimum for the period specified hereinafter. A preservation easement may be terminated only in the manner and at the time specified in this section.

(b) *Request for review.* — At any time after 25 years from the date of acquisition of a preservation easement, the owner may request that the easement be reviewed for possible termination of the easement.

(c) *Inquiry and decision.* — Upon a request for review of an easement for termination, an inquiry shall be conducted by the Foundation to determine the feasibility of profitable farming on the subject land. The inquiry shall be concluded and a decision reached by the Foundation within 180 days after the request for termination, and shall include:

- (1) On-site inspection of the subject land; and
- (2) A public hearing conducted by the Foundation within the county containing the subject land after adequate public notice; and
- (3) A review of the subject land under the LESA scoring system; and
- (4) Approval of termination by the Board of Trustees of the Foundation.

(d) *Repurchase by owner.* — If the request for termination is approved, an appraisal of the subject land shall be ordered by the Foundation at the expense of the owner requesting termination of the easement. Within a period of 180 days following the appraisal, the owner may repurchase the easement by paying to the Foundation the difference between the fair market value and the agricultural value of the subject land, as determined by the appraisal, but in no event shall the repurchase price be less than the amount paid by the Foundation for acquisition of the preservation easement. In addition, the owner shall also pay to the Fund an amount equal to any tax benefit realized under § 918 of this title. For purposes of this subsection, the term agricultural value shall also mean the price as of the valuation date which a buyer, willing but not obligated to buy, would pay for a farm unit with land comparable in quality and composition to the property being appraised, but located in the nearest location where profitable farming is feasible. For purposes of this paragraph, the term fair market value shall mean the price as of the valuation date which a buyer, willing but not obligated to buy, would pay for the land at its best and most beneficial use under any obtainable development zoning category.

(e) *Subsequent request for termination after denial or failure to repurchase.* — If the request for termination is denied, or if the owner fails to repurchase the easement within 180 days of the appraisal, the owner may not again request termination of the easement until 5 years after the owner's last such request.

(68 Del. Laws, c. 118, § 2; 84 Del. Laws, c. 42, § 9.)

§ 918. Benefits of easement conveyance.

In addition to the district benefits set forth in § 911 hereof of this title, the owner of real property subject to a preservation easement shall be entitled to exemption from taxation for the transfer of any interest in such real property by death otherwise subject to the estate tax under Chapter 15 of Title 30. The Department of Finance shall be entitled to adopt requirements to effectuate the exemption from taxation as provided hereunder.

(77 Del. Laws, c. 85, § 8; 79 Del. Laws, c. 11, § 1.)

Subchapter IV

If the right of rejection as provided herein is exercised, the Secretary of the Department of Agriculture shall notify the Foundation in writing of such decision and the reasons for it. The Secretary of the Department of Agriculture may waive the right to reject by providing notification to such effect to the Foundation. Failure to act on the part of the Secretary of the Department of Agriculture within the specified 30-day period shall constitute an affirmation of the decision of the Foundation.

(b) In the event of rejection of an application by the Secretary of the Department of Agriculture for establishment or expansion of any Agricultural Preservation District or the acquisition of a preservation easement, such application shall be considered denied and not subject to reconsideration for a period of at least 1 year.

(c) Notwithstanding any provision contained herein to the contrary, the Secretary of the Department of Agriculture shall be entitled, within 30 days of the date of adoption of criteria for establishment and maintenance of Agricultural Preservation Districts pursuant to § 904(a)(1) of this title, to reject in whole or in part such criteria as adopted by the Foundation. If the right of rejection as provided herein is exercised, the Secretary of the Department shall notify the Foundation in writing of such decision and the reasons for it. The Secretary of the Department of Agriculture may waive the right to reject by providing notification to such effect to the Foundation. Failure to act within the specified 30-day period shall constitute an affirmation of the decision of the Foundation. In response to the exercise of the

right of rejection the Foundation shall be entitled to adopt alternative criteria, which action shall also be subject to the right of rejection provided herein.

(68 Del. Laws, c. 118, § 2.)

§ 920. Enforcement of restrictions.

(a) The Foundation shall be entitled to take action in any court of competent jurisdiction to enforce any restrictions or requirements imposed under this chapter, duly adopted regulations and binding legal instruments. In any such action the Foundation shall, if it prevails, be entitled to recover its reasonable costs and expenses, including reasonable attorney's fees.

The Foundation shall also be entitled to recover in any such action all tax benefits conferred under § 911 of this title, plus one and one-half percent per month of tax benefit amounts computed on a compound basis from the date the tax benefit was first realized to the date of judgment.

(b) Any person who violates a District restriction, requirement imposed in a preservation easement or the provisions of § 910(a) of this title, shall, after notification and failure to correct the violation, be subject to a civil penalty of not less than \$50 but not more than \$200 for each completed violation. If the violation continues for a number of days, each day of such violation shall be considered a separate violation. Unless joined to an action under subsection (a) of this section, a civil penalty claim hereunder shall be filed in any Court of Common Pleas. Any civil penalties recovered shall be paid to the Fund.

(c) The Foundation shall be entitled to take action, including an action by monition, in any court of competent jurisdiction to enforce liens and to collect the Foundation's share of roll-back taxes, including penalties, which are due under the provisions of § 921(c) of this title. In any such action the Foundation shall be entitled to proceed through its legal counsel, without the need of obtaining any prior approval, and the Foundation shall, if it prevails, be entitled to recover its reasonable costs and expenses, including reasonable attorney's fees. Nothing contained herein shall preclude a county or school district from pursuing legal action to collect, on behalf of the Foundation, the Foundation's share of the roll-back tax through either independent action or as part of another action. Upon collection of the Foundation's share of the roll-back tax through such legal action the amount collected, after deduction of the seven and a half percent administration charge, shall be forwarded to the Foundation.

(68 Del. Laws, c. 118, § 2; 68 Del. Laws, c. 371, § 6.)

§ 921. Funding.

(a) The Director of the Office of Management and Budget and the Controller General are authorized to transfer the sum of \$48,000 from the Office of Management and Budget Contingency Appropriation Salary, (10-02-04), contained in Senate Bill No. 500 of the 135th General Assembly (Fiscal Year 1991 Appropriation Act) for use by the Foundation to carry out the purposes of this chapter. Any Foundation funds not otherwise appropriated or encumbered as of June 30, 1991, shall be considered a continuing appropriation for Fiscal Year 1992.

(b) The Secretary of the Department of Agriculture is hereby authorized and directed, on behalf of the Foundation, to apply on or before August 1, 1991, for federal funding available to the State under the Farms for the Future Act of 1990 (7 U.S.C. § 4201 et seq.) by submitting any necessary applications and taking such other action to qualify for eligibility.

(c) All moneys collected by the respective county receiver of taxes, treasurer or director of finance as the Foundation's share of roll-back taxes under § 8335(d) of Title 9 shall, when collected and after deduction of the seven and a half percent administration charge, be transferred to the Foundation for use in carrying out the purposes of this chapter. The Foundation shall be entitled to adopt and impose procedures and requirements to assure collection of its share of roll-back taxes and the Foundation shall be entitled to notify county taxing authorities of lands subject to the agricultural lands preservation assessment and upon such notification such county taxing authorities shall include the amount due on the property tax statements submitted with respect to the converted lands. Nonpayment of the Foundation's share of the roll-back tax, including penalties, shall when payable result in the imposition of a lien on the land for nonpayment, which lien shall qualify for all purposes as a lien under § 2901 of Title 25.

(d) There is hereby established a Committee on Funding for Farmland Preservation, which shall consist of 2 members of the Delaware Senate as appointed by the President Pro Tem of the Senate, 2 members of the Delaware House of Representatives as appointed by the Speaker of the House of Representatives and 3 members appointed by the Governor. The Committee shall review and consider ways and means of providing reliable, short-term and long-term funding for the permanent preservation of viable agricultural lands. The Committee shall also review and consider ways and means of creating economic incentives for the establishment and expansion of Agricultural Preservation Districts and the acquisition of agricultural lands preservation easements, such as the use of tax credits for activities undertaken in Agricultural Preservation Districts which reduce or eliminate the impact of the release of pollutants to the environment. The Committee shall report its findings to the Governor and the General Assembly on or before March 1, 1993.

(e) All moneys directed to the Foundation under this chapter, either directly or indirectly, shall be for the exclusive benefit of the Foundation in carrying out the purposes of this chapter. Such funding shall be considered separate and distinct from any other funding authorization, even though the funding amount may be determined on the basis of tax rates, assessments or by other means used by other entities.

§ 922. Condemnation of Preservation District lands.

Nothing contained in this chapter shall prohibit the exercise of powers of eminent domain or condemnation with respect to lands located in an Agricultural Preservation District; provided, however, that the compensation paid for such lands by the condemning authority shall be based on the highest and best development use of the property with no consideration given to the restrictions and limitations imposed under this chapter; and provided further, that the condemning authority shall also include in its taking such additional lands rendered unusable or unprofitable for intended agricultural uses. Payment of compensation shall be made to the owner or, in the event the property is subject to a preservation easement, to the owner and the Foundation in accordance with their respective interests.

(68 Del. Laws, c. 118, § 2.)

§ 923. Interim Foundation staffing.

(a) Until such time that funding is available to support a permanent Foundation staff, the staff support necessary for Foundation activities provided under this chapter shall be provided by the Agricultural Lands Preservation Section of the Department of Agriculture. (b) The Department of Agriculture shall provide to the Foundation the administrative support necessary for the organization of the Foundation, including accommodations for meetings until such time that an office is opened by the Foundation.

(c) The Foundation shall, from its sources of funding, reimburse the Department of Agriculture for any out-of-pocket costs expended by the Department of Agriculture on behalf of the Foundation which are related to efforts undertaken by the Department of Agriculture under this section.

(68 Del. Laws, c. 118, § 2.)

§ 926. Tax status.

The duties and functions exercised by the Foundation under this chapter, and any amendments hereof or supplements hereto, are and will be in all respects for the benefit of the people of the State and for the protection of their health and welfare. To this end, the Foundation shall be regarded as performing essential governmental functions in exercising such duties and functions and in carrying out this chapter and any law relating thereto, and shall not be required to pay any taxes or assessments of any character, levied either by the State or a political subdivision thereof, upon any of the property used by it for such purposes, or any income or revenue therefrom, including any profit from a sale or exchange. The acquisition and transfer of preservation easements hereunder shall be exempt from all realty transfer tax imposed under Chapter 54 of Title 30 and any county or municipal ordinance requiring payment of a realty transfer tax.

(68 Del. Laws, c. 118, § 2.)

§ 927. Judicial review.

Judicial proceedings to review any rule, regulations or other action of the Foundation or to determine the meaning or effect thereof may be brought in the Superior Court of this State, provided such review is requested within 30 days from the date of the promulgation of the rule or regulation or other action of the Foundation.

(68 Del. Laws, c. 118, § 2.)

A record from which a verbatim transcript can be prepared shall be made of all public hearings and shall, along with the exhibits and other documents introduced, constitute the record.

(68 Del. Laws, c. 118, § 2.)

§ 929. Construction of chapter.

This chapter and the regulations promulgated thereunder shall be construed liberally to effectuate the legislative intent and as complete authority for the performance of each and every act and thing herein authorized.

(68 Del. Laws, c. 118, § 2.)

§ 930. Rules and regulations; investigations; review by Attorney General.

(a) The Secretary of the Department of Agriculture may establish and promulgate such rules and regulations as he or she deems necessary to enforce the state policy established under this chapter.

(b) Whenever the Secretary of the Department of Agriculture has reason to believe that a public agency's action will have an adverse impact on agriculture without an ample finding of public need or is harmful to the maintenance and preservation of agricultural activities, the Secretary may conduct a hearing to investigate the actions and make recommendations consistent with this chapter to the public agency.

(c) Whenever the public agency disagrees with the Secretary's recommendations, the Secretary may request the Attorney General to review the record of the hearing on the matter and determine whether a Chancery Court action for injunctive relief consistent with this chapter is warranted.

Subchapter V Forestland Preservation

§ 931. Purpose, policy and intent.

It is the declared policy of the State to conserve, protect and encourage the proper utilization of the State's forestland resources. The forestlands of the State are a renewable resource which provide economic, environmental and social benefits. There is a need to provide sufficient economic benefit to the owners of forestlands to voluntarily subject forestlands to protective restrictions through the sale of forestland preservation easements. The establishment of permanent forested areas throughout the State will serve the long term needs of the forest industry while providing invaluable wildlife and habitat protections and open space benefits to the citizens of the State.

(75 Del. Laws, c. 201, § 6.)

§ 932. Establishment of forestland preservation areas.

(a) Any owner or owners of contiguous forestland containing at least 10 acres of such lands located in the State and outside of a designated growth zone may submit on a voluntary basis, on such forms as the Foundation prescribes, an application for establishment of a forestland preservation area. Upon receipt of a completed application, the Foundation and the State Forester shall review the application to determine if it satisfies the criteria for eligibility established under § 933 of this title, and any rules of practice and procedure for acquiring forestland preservation easements adopted and related thereto. The Foundation shall notify the applicant of the findings, and may provide assistance to potential applicants regarding completion of necessary application forms.

(b) The Foundation shall consider approval of application at noticed regularly scheduled meetings. Upon Foundation approval of a forestland preservation area, and after the landowner or owners execute a forestland preservation agreement in a recordable form as provided by the Foundation, the Foundation shall provide appropriate notice and a description of the established forestland preservation area to the planning and zoning commission and board of assessment for the county in which the forestland preservation area is located. Upon receipt of such information from the Foundation, the planning and zoning commission and board of assessment shall provide appropriate reference in their real property records and notations on maps which are utilized and maintained that the subject real property is designated as a forestland preservation area.

(75 Del. Laws, c. 201, § 6.)

§ 933. Forestland preservation area criteria for eligibility and review.

In order to be considered eligible for inclusion in a forestland preservation area, an application which meets the requirements of § 932 of this title shall satisfy the following criteria:

- (1) The owner or owners seeking inclusion of real property in a forestland preservation area shall hold fee simple title to such property;
- (2) The real property shall be located outside a designated growth zone;
- (3) The real property shall be zoned to allow for agricultural or open space uses and shall not be subject to any major subdivision plan;
- (4) The real property consists of viable and potentially productive forestlands;
- (5) The real property is not subject to an existing conservation or preservation easement or other restriction which prohibits development;

(6) The owner or owners of the real property proposed for inclusion in a forestland preservation area execute a forestland preservation agreement in recordable form as provided by the Foundation which contains the forestland preservation area restrictions set forth in § 934 of this title;

(7) The property proposed for consideration in the forestland preservation area shall include all of the eligible forestlands located in the tax parcels subject to the application. No eligible real property shall be carved out or otherwise excluded from the application to create a forestland preservation area or an application to sell a forestland preservation easement, except that 1 location containing no more than 1 acre of land may be designated for seasonal recreational dwelling usage provided that the property proposed for consideration in the forestland preservation area or proposed for sale of a forestland easement contains at least 30 acres and the use of the designated area does not adversely affect the forestland use of the property;

(8) a. No more than 1 acre of land for each 20 acres of usable land owned in a forest conservation area or forest conservation easement, to a maximum of 10 acres, shall be allowed for permanent dwelling housing. The establishment or existence of any seasonal housing will be counted against the total allowable permanent dwelling housing acreage; and

b. With respect to acreage allowed for dwelling housing there shall be a limit of 3 dwelling houses for residential use placed on the allowable acreage at 3 locations designated by the owner. This includes any pre-existing dwelling housing and/or the seasonal housing pursuant to paragraph (7) of this section above, unless there exist 3 dwelling houses on the real property at the time of approval of the new forest conservation area or forest conservation easement, in which case the allowable total number of dwelling housing and the allowable acreage shall be allocated to be existing dwelling houses and no additional dwelling houses shall be allowed. Such dwelling housing locations must be designated at the time of establishing the forest conservation area; and

(9) The property shall have a forest management plan prepared by a professional forester that addresses the landowner's forest management goals for the property. The plan shall contain, at a minimum, aerial and soil maps of the property, a description and analysis of the forest by management unit, and silvicultural prescriptions for each management unit. The plan shall be made available for inspection by the State Forester's office and the plan shall be revised and updated at a minimum every 5 years.

(75 Del. Laws, c. 201, § 6.)

§ 934. Forestland preservation area restrictions.

(a) The forestlands included in a forestland preservation area shall be subject to the following restrictions:

(1) No rezoning or major subdivision of the real property shall be allowed;

(2) Activities conducted on the real property shall be limited to forestry production, forestry operations, forestry management and control, wildlife habitat management, and related activities;

(3) No residential use of the real property shall be allowed, except for the seasonal recreational dwelling usage designated pursuant to § 933(7) of this title hereof;

(4) No conversion of the forestland to cropland, pasture land, open space or other types of land uses shall be allowed.

(5) No permanent commercial or industrial structures shall be located on the real property; and

(6) No mining, commercial excavation or extractive uses shall be conducted on the property.

(7) No disposal, burial, storage, or stock piling of junk, vehicles, equipment, liquid waste, solid waste or other liquid or solid materials, except that wastewater spray irrigation shall be allowed utilizing best available treatment technology with storage and treatment facilities located on lands other than forestland preservation areas.

(b) Forestry management, control and related activities allowed on forestland preservation areas are:

(1) Hunting, trapping and fishing provided such activities are limited to private noncommercial activities and do not adversely affect the forestland use of the property, and provided further that leasing of the property for such noncommercial activities shall be allowed.

(2) Easements, licenses and other property interests for utility, telecommunications, and access uses subject to the requirements set forth in § 909(a)(5)f. of this title;

(3) The use of portable nonpermanent forest planting, harvesting and processing equipment;

(4) Conservation, educational and research activities related to forestlands;

(5) Ditching for drainage necessary to enhance or preserve forestlands; and

(6) The grazing of livestock, excluding housing or shelters, subject to prior approval by the State Forester;

(7) Timbering and reforestation;

(8) Noncommercial private recreational uses such as hiking, horseback riding, and primitive camping, provided such activities do not adversely affect the forestland use of the property; and

(9) Activities involving best forestland management practices.

(c) Any transfer of real property in a forestland preservation area or subject to a forestland preservation easement shall be preceded by the execution by the transferee of a document, in recordable form and as prescribed by the Foundation, which references the restrictions applicable to the real property.

(d) The restrictions set forth in a forestland preservation area agreement shall be deemed covenants which run with and bind the lands in the forestland preservation area for a period of 10 years or any extended period from the date of approval of the forestland preservation

area. The real property in a forestland preservation area shall be released from the restrictions at the expiration of the 10-year period if the owner of the forestland provides written notification to the Foundation of the intent to withdraw such lands from the forestland preservation area at least 6 months prior to expiration of the referenced 10-year period; otherwise the real property shall remain as a forestland preservation area for additional 5-year periods until such time that the owner, provides prior to the expiration date of any such additional period, at least 6 months prior written notice to the Foundation of intent to withdraw.

(e) In the event of the purchase of a forestland preservation easement by the Foundation, the restrictions set forth under this section shall become permanent and not subject to release.

(75 Del. Laws, c. 201, § 6.)

§ 935. Forestland use protections and benefits.

(a) Owners of real property located in a forestland preservation area shall be entitled to the same protections provided to the owners of real property in Agricultural Preservation Districts under the provisions of § 910 of this title, and the term “Agricultural Preservation District(s)” as used in § 910 of this title, shall include a forestland preservation area.

(b) Owners of real property located in a forestland preservation area shall be entitled to the same benefits provided to owners of real property located in Agricultural Preservation Districts under the provisions of § 911 of this title, and the term “Agricultural Preservation District(s)”, as used in § 911 of this title, shall include a forestland preservation area.

(75 Del. Laws, c. 201, § 6.)

§ 936. Acquisition of forestland preservation easements.

(a) The Foundation, subject to the availability of funds, shall be entitled to acquire, maintain and enforce forestland preservation easements for lands which are located in forestland preservation areas. The purchase of forestland preservation easements by the Foundation is purely a discretionary function, and the Foundation shall be under no obligation to purchase a forestland preservation easement from any applicant. The Foundation may utilize such method or methods of payment for forestland preservation easements as may be available. Upon acquisition of a forestland preservation easement the lands subject to such easement shall form a permanent forestland preservation area. The acquisition of a forestland preservation easement by the Foundation shall not grant the public any right of access or right of use of the real property subject to the easement.

(b) The Foundation shall adopt rules of practice and procedure for the acquisition of forestland preservation easements which shall include the process and timeframe for submitting applications for the sale of forestland preservation easements, the establishment of the purchase price for the easements through use of appraisal information, the manner in which offers to sell easements are accepted, and the basis upon which offers for sale of easements are accepted. The rules of practice and procedure shall incorporate, to the extent necessary, provisions for utilizing federal, county or other funding.

(75 Del. Laws, c. 201, § 6.)

§ 937. Forestland preservation easement criteria for eligibility and evaluation.

(a) In order for the Foundation to acquire a forestland preservation easement it shall be required that:

(1) The grantor of the forestland preservation easement has fee simple title to the real property and conveys the easement free and clear of all liens and encumbrances; and

(2) The preservation easement is granted in perpetuity in a form acceptable to the Foundation, and includes the restrictions set forth in § 934 of this title, and such other terms and conditions as specified by the Foundation.

(b) In reviewing applications for the conveyance of forestlands preservation easements the Foundation shall consider the relative cost of acquiring the easement giving due consideration to the extent to which an applicant is willing to discount the sale price below the easement value established by the Foundation.

(c) The Foundation shall approve and announce the purchase price of forestland preservation easements at its regularly scheduled meetings.

(75 Del. Laws, c. 201, § 6.)

§ 938. Right of rejection.

The Secretary of the Department of Agriculture shall, with respect to the approval of a forestland preservation area or the approval of purchase of forestland preservation easements, be entitled to reject such approvals in the manner and subject to the provisions of § 919 of this title.

(75 Del. Laws, c. 201, § 6.)

§ 939. Enforcement of restrictions.

The Foundation is authorized to take those actions and exercise the authority and entitlements set forth under § 920 of this title to enforce the restrictions and other provisions which apply to forestland preservation areas, forestland preservation area agreements, forestland preservation easements, and the provisions of this subchapter.

(75 Del. Laws, c. 201, § 6.)

§ 940. Condemnations.

Subchapter V

Pine and Yellow-Poplar Tree Conservation and Reforestation

§ 1051. Findings; policy; purpose.

The General Assembly finds and declares that the pine and yellow-poplar forest resource of the State provides significant recreational, aesthetic, wildlife and environmental benefits as well as wood fiber essential to commerce and industry for the citizens of the State. The General Assembly has also determined that the pine and hardwood forest resources are being harvested at a greater rate than they are being replanted or reproduced and unless measures are instituted to ensure that the forest resources are sustained, this natural resource will be depleted to the detriment of the citizens of the State. It is, therefore, the declared public policy of this State to preserve and protect the pine and yellow-poplar forest resources of the State. The purpose of this subchapter is to regulate the maintenance and reproduction of the pine and yellow-poplar forest resources of the State in the public interest.

(72 Del. Laws, c. 235, § 2.)

§ 1052. Definitions.

As used in this subchapter:

(1) "Cutting operation" shall mean the cutting of timber for commercial purposes from 10 acres or more of land on which loblolly pine (*Pinus taeda*), shortleaf pine (*Pinus echinata*), pond pine (*Pinus serotina*) or yellow-poplar (*Liriodendron tulipifera*) singly or together occur and constitute 25 percent or more of the live trees on each acre.

(2) "Live tree" shall mean trees that have their crowns in the uppermost layers of the canopy (dominant and co-dominant trees) and are largely free growing, free of insect and disease infestation, windfirm and old enough to produce fertile seed crops.

(3) "Diameter" shall mean the diameter outside bark of a standing tree measured 4.5 feet above the ground.

(4) "Landowner" shall mean any person holding title to the land or possessing the right to contract for the cutting operation thereon.

(5) "Operator" shall mean any person, including a landowner, who conducts any cutting operation.

(6) "Person" shall mean the State, or any county, municipality, corporation or other political subdivision of the State or any of their units, or an individual receiver, trustee, guardian, executor, administrator, fiduciary or representative of any kind, or any partnership, firm, association or public or private corporation, or principal(s) in business ventures operating under more than 1 name, or any other entity.

(7) "Pine" shall mean any loblolly pine (*Pinus taeda*), shortleaf pine (*Pinus echinata*) or pond pine (*Pinus serotina*).

(8) "Secretary" shall mean the Secretary of the Department of Agriculture.

(9) "Seedling" shall mean a young pine or yellow-poplar plant less than 1 inch in diameter.

(10) "Tree" or "timber" shall mean any tree of a currently commercially valuable species that is 6 inches or more in diameter.

(11) "Free to grow" shall mean to increase the stem and crown diameter, basal area, height, volume and quality of an individual tree.

(72 Del. Laws, c. 235, § 2.)

§ 1053. Conservation or reforestation plan required; applicability; regulations.

(a) No person shall commence a cutting operation unless seed trees have been reserved pursuant to the natural regeneration method set forth herein or pursuant to an alternate management plan approved by the State Forester or the State Forester's designee.

(b) This subchapter shall not apply to operations cutting timber from land being cleared for reservoirs, military installations, agriculture, residential, ditch and utility right-of-ways, industrial sites, or railroads, or to cutting operations undertaken pursuant to a contract executed prior to January 1, 1989.

(c) The Department of Agriculture shall have the authority to adopt, amend, modify or repeal such rules and regulations as it deems necessary to effectuate the policies and the purposes of this subchapter.

(72 Del. Laws, c. 235, § 2; 84 Del. Laws, c. 42, § 10.)

§ 1054. Natural regeneration; notice required upon transfer.

(a) Operators and landowners shall leave uncut and uninjured at least 6 seed-bearing pine or yellow-poplar trees 14 inches in diameter or larger on each acre involved in a cutting operation. If an acre lacks 1 or more of the required seed trees, then 2 seed-bearing pines or yellow-poplars of the next smallest diameter shall be chosen to replace each missing tree.

(b) Trees reserved pursuant to subsection (a) of this section for the purpose of reseedling shall be healthy, windfirm, and well-distributed throughout each acre, and have well developed crowns possessing viable cones.

(c) Seed-bearing pine or yellow-poplar trees need not be reserved if at least 400 pine or yellow-poplar seedlings exist on each acre that are vigorous, well distributed throughout, and free to grow upon completion of the cutting operation.

(d) Any operators or landowners proposing to utilize the natural regeneration method shall notify the State Forester at the Delaware Department of Agriculture Forest Service of the proposed natural regeneration plan at least 10 working days prior to initiation of a cutting operation.

(1) Operators or landowners shall be responsible for having seed trees physically marked prior to notification of the State Forester.

(2) Within 10 working days, the State Forester or the State Forester's designated agent shall inspect the proposed site and provide the operator or landowner with approval, approval with modifications, or rejection of the natural regeneration plan.

(e) Once approval is given, but before the cutting operation begins, the landowner will agree, on a form furnished by the Department of Agriculture Forest Service, not to cut or permit to be cut any pine or yellow-poplar tree required to be reserved for reseedling for 2 years after completion of the cutting operation. The provisions of this subsection do not apply if the landowner places the land in any of the uses enumerated in § 1053(b) of this title.

(f) Prior to the sale or other transfer of rights of the land or perpetual timber rights subject to the obligation to reserve the trees, the transferor shall notify the transferee of the existence and nature of the obligation and the transferee shall sign a notice of the obligation indicating the transferee's knowledge thereof.

(1) The notice shall be on a form furnished by the Department of Agriculture Forest Service and shall be sent to the Department of Agriculture by the transferor at the time of sale or transfer of rights of the land or perpetual timber rights.

(2) If the transferor fails to notify the transferee about the obligation to reserve the trees, the transferor shall pay the transferee's costs related to fulfilling the obligation to reserve the trees or reforest all trees cut, including all legal costs and reasonable attorneys' fees incurred by the transferee in enforcing the obligation against the transferor.

(3) Failure by the transferor to send the required notice to the Department of Agriculture Forest Service at the time of transfer shall be prima facie evidence in any action by the transferee against the transferor for costs related to reserving the trees or reforesting all trees cut that the transferor did not notify the transferee of the obligation to reserve the trees prior to transfer.

(72 Del. Laws, c. 235, § 2; 70 Del. Laws, c. 186, § 1.)

§ 1055. Reforestation method; notice required upon transfer.

(a) The land involved in a cutting operation may be reforested pursuant to an approved reforestation plan in lieu of the natural regeneration method. The plan shall be prepared by the landowner or the landowner's agent and shall be designed to assure the reproduction and maintenance of growth of young, vigorous pine or yellow-poplar trees.

(b) The reforestation plan shall be accompanied by a statement of the landowner, on a form furnished by the Department of Agriculture Forest Service, that the landowner will not perform any act or permit any act to be performed which prevents reforestation. This provision does not apply if the landowner places the land in any of the uses enumerated in § 1053(b) of this title.

(c) Ten working days prior to the initiation of the cutting operation, the landowner or the landowner's agent or operator shall notify the State Forester of the intention to reforest and shall submit a reforestation plan.

(d) The landowner or the landowner's agent or operator shall submit the reforestation plan to the State Forester at the Department of Agriculture Forest Service for approval.

(1) The Department of Agriculture Forest Service shall approve, approve with modifications, or reject any reforestation plan submitted within 10 working days.

(2) The determination of the Department of Agriculture Forest Service shall be in writing, setting forth the reasons for approval with modifications or rejection, and shall be forwarded to the operator or landowner.

(3) In cases where a reforestation plan has been rejected by the State Forester, the landowner or the landowner's agent or operator shall be required to submit another reforestation plan for approval. Under no circumstances shall a cutting operation begin prior to approval of a reforestation plan by the DDA Forest Service.

(e) Prior to the sale or other transfer of rights of land or perpetual timber rights subject to a reforestation obligation, the transferor of land shall notify the transferee of the existence and nature of the obligation and the transferee shall sign a notice of reforestation obligation indicating the transferee's knowledge thereof.

(1) The notice shall be on a form furnished by the Department of Agriculture Forest Service and shall be sent to the Department of Agriculture by the transferor at the time of sale or transfer of rights of land or perpetual timber rights.

(2) If the transferor fails to notify the transferee about the reforestation obligation, the transferor shall pay the transferee's costs related to reforestation, including all legal costs and reasonable attorneys' fees incurred by the transferee in enforcing the reforestation obligation against the transferor.

(3) Failure by the transferor to send the required notice to the Department of Agriculture at the time of the sale shall be prima facie evidence in any action by the transferee against the transferor for costs related to reforestation that the transferor did not notify the buyer of the reforestation obligation prior to sale.

(72 Del. Laws, c. 235, § 2; 70 Del. Laws, c. 186, § 1.)

Regulation of Sale and Use of Pesticides and Devices

§ 1203. Regulation; duties and powers of Department.

(a) In order to regulate the sale and/or use of pesticides and devices in this State, the Department shall, by regulation, provide that every pesticide and device distributed and/or used within this State shall be duly registered with the Department. The Department, with the approval of the Secretary of Agriculture, shall establish a biennial registration fee, not to exceed \$140, for each pesticide or device registered. The fee established by the Secretary of Agriculture shall approximate and reasonably reflect all costs necessary to defray the expenses of the Department’s activities pursuant to this chapter. At the beginning of each calendar year, the Department shall compute the appropriate pesticide or device registration fee. All revenue generated by this fee shall be deposited in an appropriated special fund account in the Department of Agriculture.

(b) Any regulation adopted by the Department pursuant to its authority under § 1237 of this title may prescribe the methods to be used in application of pesticides, and may relate to the time, place, manner, materials and amounts and concentrations, in connection with the application of the pesticides, and may restrict or prohibit use of pesticides in designated areas during specified periods of time and shall encompass all reasonable factors which the Department deems necessary to prevent damage or injury by drift or misapplication to:

(1) Plants, including forage plants, or adjacent or nearby lands;

(2) Wildlife in the adjoining or nearby areas;

(3) Fish and other aquatic life in waters in reasonable proximity to the areas to be treated; or

(4) Humans, animals or beneficial insects.

(c) The Department may also, by regulation, after a public hearing following due notice, determine “state restricted pesticide uses” for the State or for designated areas within the State, and may require a permit for purchase, possession and application of a pesticide labeled for a use which is designated as a “state restricted pesticide use.”

(d) In issuing such regulations, the Department shall give consideration to pertinent research findings and recommendations of other agencies of the State, the federal government or other reliable sources.

(e) The Department shall adopt "restricted use pesticide" classifications. For the purpose of uniformity and in order to enter into cooperative agreements, these classifications shall conform to all current and future classifications adopted by E.P.A.

(f) The Department, after notice and hearing, and in agreement with the Department of Natural Resources and Environmental Control of the State, is authorized to declare a pest any form of plant or animal life (other than humans and other than bacteria, virus and other microorganisms on or in living humans or other living animals) which is injurious to health or the environment.

(g) In order to comply with § 4 of FIFRA [7 U.S.C. § 136i(a)-(c)], the Department is authorized to make such reports to the E.P.A. in such form and containing such information as E.P.A. may from time to time require.

(h) The Department is authorized, by regulation, to determine standards of coloring or discoloring for pesticides.

(i) The Secretary shall have the power to issue an order to any person violating any rule, regulation or order, or provision under this chapter to cease and desist from such violation; provided that any cease and desist order issued pursuant to this section shall expire:

- (1) After 30 days of its issuance; or

(b) Every pesticide which does not have E.P.A. registration for the use intended and which is formulated for distribution and use within this State shall be duly registered with the Department in accordance with this section.

(c) Any application for the registration of a pesticide under this section shall be filed with the Department and include the information set forth pursuant to the regulations adopted under § 1203 of this title. The Department may register such pesticide if it determines that:

- (1) Its composition is such as to warrant the proposed claim for it;

- (5) The classification for general or restricted use is in conformity with § 3(d) of FIFRA [7 U.S.C. § 136a(d)]; and provided, that the Department shall not make any lack of essentiality a criterion for denying registration of any pesticide. Where 2 pesticides meet the requirements of this paragraph, 1 should not be registered in preference to the other; or
- (6) Special local needs exist.

(60 Del. Laws, c. 671, § 1.)

§ 1205. Revocation or suspension of registration.

(a) The Department may, after due notice, including notice to the registrant and opportunity for a hearing, revoke the registration of a pesticide registered pursuant to this chapter if the pesticide or its labeling does not comply with the requirements of this chapter or the regulations promulgated by the Department, or to prevent unreasonable adverse effects on the environment. A person affected by such revocation may request a hearing before the Department. A hearing shall be held within 30 days after request. Within 30 days after the hearing, the Department shall affirm, withdraw or modify its action by an order based upon the record of the hearing. An appeal from that order may be taken to the Superior Court within 30 days of the date of the order.

(b) The Department may suspend the registration of any pesticide pending the completion of revocation proceedings if the continued use of a pesticide during the time required for revocation proceedings would be likely to result in unreasonable adverse effects on the environment. A revocation order shall be issued with the suspension order so that the hearing procedure may be initiated as provided in cases of revocation of registration. If no request for a hearing is made within 30 days of the suspension order, the revocation order will be effective and the registration is revoked.

(58 Del. Laws, c. 166; 60 Del. Laws, c. 671, § 1.)

At least 1 person designated as a certified applicator under the license shall meet the experience requirement specified in § 1207(c) of this title. No license shall be required of any private applicator.

(b) The Department shall classify or subclassify licenses to be issued under this chapter. Such classifications may include, but are not limited to, pest control operators and ornamental, agricultural or right-of-way pesticide applicators. Separate subclassifications may be specified as to ground, aerial or manual methods used by any licensee to apply pesticides and to the use of pesticides to control pests (provided that no person shall be required to pay an additional license fee if such person desires to be licensed in 1 or all of the license classifications provided for by the Department under the authority of this chapter).

(1) The applicant must provide evidence that at least 1 applicator in his or her employ is certified to apply pesticides in the classification(s) of pest control for which he or she is applying. At least 1 of these certified applicators must have a minimum of 2 years practical experience under the supervision of a certified applicator. This experience shall have been acquired during the previous 3-year period and shall be related to the license classification at issue.

(2) The applicant files the proper proof of financial responsibility as required under § 1208(a) of this title.

(3) If the applicant is applying for a license to engage in the aerial application of pesticides, he or she shall have met all the requirements of the Federal Aviation Administration and any other applicable federal or state laws or regulations to operate the equipment described in the application.

(d) The Department may limit the license of the applicant to the use of certain pesticides, to certain areas or to certain types of equipment if the applicant is only so qualified. If a license is not issued as applied for, the department shall inform the applicant in writing of the reasons therefor.

(e) If the application for renewal of any license provided for in this chapter is not filed prior to the 1st day of January in any year, a penalty of 20 percent of the yearly fee shall be assessed and added to the renewal fee and shall be paid by the applicant before the renewal license shall be issued.

(b) The Department shall by regulation charge a fee not to exceed \$25 for the registration of noncertified individuals in the employ of licensees.

(c) The employee registration fee shall not be required of a certified commercial applicator, provided that the applicator's certificate is valid.

(60 Del. Laws, c. 671, § 1; 67 Del. Laws, c. 275, §§ 1-3.)

§ 1213. Nonresidents; service of process.

Any nonresident applying for a license under this chapter shall appoint and constitute the Secretary of State of this State the nonresident's agent for the acceptance of legal process in any civil action against such nonresident. Any such process when so served shall be of the same legal force and validity as if served upon such nonresident personally within the State. Such appointment shall be irrevocable and binding on the nonresident's executor or administrator; provided, however, that any such nonresident who has a duly appointed resident agent upon whom process may be served as provided by law shall not be required to designate the Secretary of State as such agent. The Secretary of State shall be allowed such fees therefor as provided by law for designating resident agents. The Department shall be furnished with a copy of such designation of the Secretary of State or of a resident agent, such copy to be duly certified by the Secretary of State.

(1) No person may use a pesticide designated as a "state restricted use pesticide" until that person has a permit duly issued by the Department; and

(2) No person may sell a "restricted use pesticide" or a "state restricted use pesticide" unless that person has a dealer permit.

(b) Applications for permits shall be made to the Department on forms prepared by it. The Department shall grant a permit to purchase and/or use a pesticide designated for use as a "state restricted pesticide use" subject to such restrictions as it finds necessary in each case to protect the overall public interest and welfare. The permit may specify the area, time, amount or rate of application or such other conditions of use as the Department finds necessary to carry out the purposes of this chapter. Permits shall be issued on an annual basis.

(c) The Department shall promulgate such rules, regulations and fees necessary to carry into effect this section and to alter or uniformly suspend such rules, regulations and fees when necessary. Prior to the promulgation of any rules, regulations and fees, the Department shall hold public hearings following due notice. The hearings shall be conducted by the Department for the purpose of receiving evidence relevant and material to the issues, following the conclusion of which the Department shall issue such rules, regulations and fees as it sees fit, based on the evidence received at such hearings. An appeal from that order may be taken to the Superior Court within 30 days of the date of the order.

(d) The Department may require a permit fee.

(e) Provided the State is authorized by the Administrator of E.P.A. to issue experimental use permits, the Department may:

(1) Issue an experimental use permit to any person applying for an experimental use permit if it determines that the applicant needs such permit in order to accumulate information necessary to register a pesticide under § 1204 of this title. An application for an experimental use permit may be filed at the time of, or before or after an application for registration is filed;

(2) Prescribe terms, conditions and periods of time for the experimental use permit which shall be under the supervision of the Department; and

(3) Revoke or modify any experimental use permit, at any time, if it finds that its terms or conditions are being violated, or that its terms and conditions are inadequate to avoid unreasonable adverse effects on the environment.

(f) All permits, except experimental use permits, shall continue in full force and effect until December 31st of each year whereupon they shall become invalid unless renewed, except that a permit for which a renewal application has been submitted to the Department by

December 31st shall remain in full force and effect until such time as the Department gives written notice to the permit holder of renewal or denial. Forms for renewal shall be mailed to all holders of current permits by the Department by October 1st of each year.

(g) (1) The Department may deny a permit to any person if it finds after a hearing that the public interest requires such denial.

(2) The Department may revoke a permit, after due notice to the permit holder and opportunity for hearing, if it finds that the permit holder has violated this chapter, or if an emergency creates a clear and present danger to the overall public interest and welfare from the uses authorized by the permit.

(3) A person whose permit is denied or revoked may request a hearing before the Department. A hearing shall be held within 30 days after request. Within 30 days after the hearing, the Department shall affirm, withdraw or modify its action by an order based upon the record of the hearing. An appeal from that order may be taken to the Superior Court within 30 days of the date of the order.

(58 Del. Laws, c. 166; 60 Del. Laws, c. 671, § 1; 67 Del. Laws, c. 51, § 2.)

Subchapter III

Certification of Applicators

§ 1215. Applicability of subchapter.

This subchapter shall become applicable upon approval by the Administrator of E.P.A. of the state plan submitted by the Governor pursuant to § 4(a)(2) of FIFRA [7 U.S.C. § 136i(a)(2)].

(60 Del. Laws, c. 671, § 1.)

§ 1216. Certification — Required.

In order to prevent unreasonable adverse effects on the environment, including injury to users of pesticides and others, no individual shall use any restricted use pesticide unless such individual has either been duly certified by the Department or is under the direct supervision of a certified applicator. An applicant for certification must be at least 18 years of age.

(60 Del. Laws, c. 671, § 1; 67 Del. Laws, c. 311, § 1.)

§ 1217. Same — Standards; classifications.

(a) The Department in promulgating regulations under this chapter shall prescribe standards for the certification of applicators of pesticides. Such standards shall relate to the use and handling of pesticides, or to the use and handling of the pesticides or class of pesticides covered by the individual's certification, and shall be relative to the hazards involved. In determining standards, the Department shall consider the characteristics of the pesticide formulation such as: The acute mammalian toxicity; the persistence, mobility and susceptibility to biological concentration; the use experience which may reflect an inherent misuse or an unexpected good safety record which does not always follow laboratory toxicological information; the relative hazards of patterns of use such as granular soil applications, ultra low volume or aerial dust applications, or air blast sprayer applications; and the extent of the intended use. Further, the Department shall adopt by regulation the certification standards of the E.P.A.

(b) The Department shall classify or subclassify certifications to be issued under this chapter. Such classifications shall include commercial applicators and private applicators, and classifications and subclassifications may include, but not be limited to, pest control operators, ornamental, agricultural or right-of-way pesticide applicators. Separate subclassifications may be specified as to ground, aerial or manual methods used by any applicator to apply pesticides or to the use of pesticides to control insects and plant diseases, rodents or weeds. Each classification shall be subject to separate examination procedures and requirements.

(60 Del. Laws, c. 671, § 1.)

§ 1218. Same — Procedure.

(a) The Department, by regulation, shall provide for a certification procedure. Such procedure shall consist, in part, of an application and examination, except that the examination requirement may be waived in part or whole by the Department on a reciprocal basis with any other state which has substantially the same standards.

(b) The Department shall by regulation require an annual certification fee for commercial applicators.

(60 Del. Laws, c. 671, § 1; 64 Del. Laws, c. 189, § 5; 65 Del. Laws, c. 187, § 1.)

§ 1219. Same — Renewal of certification.

An applicator's certification shall automatically renew under the classification or subclassification for which such applicator is certified; provided, however, reexamination may be required by the Department:

(1) Of any applicator whose certification, license or permit has been suspended, revoked or modified;

(2) At any time if significant technological developments have occurred to require additional knowledge related to the classifications or subclassifications for which the applicator has been certified, and to assure a continuing level of competence and ability to use pesticides safely and properly; or

(3) When required by additional standards established by the E.P.A.

Such reexamination or special examination requirements may be waived by the Department when the applicator can furnish satisfactory evidence of completion of educational courses, programs or seminars approved by the Department relating to the applicator's certification.

(60 Del. Laws, c. 671, § 1.)

§ 1220. Same — Denial; revocation; suspension; modification.

(a) If the applicant is not certified under this subchapter, the Department shall notify such applicant, in writing, of the reasons therefor.

(b) The Department, after due notice and opportunity for hearing, may suspend, revoke or modify any provision of any certification, including reciprocal certification, issued under this subchapter if the Department finds that the certified applicator or any individual acting under the direct supervision of such certified applicator has committed any acts declared by this chapter to be unlawful, or the certified applicator has been convicted or is subject to a final order imposing a civil penalty under § 14 of FIFRA [7 U.S.C. § 136l].

(c) The Department shall deny the issuance of a certification to any person working under the direction or employment of an applicator whose certification has been suspended, revoked or modified. Such denial shall continue in effect until the term of the Department's final order has expired.

(60 Del. Laws, c. 671, § 1; 67 Del. Laws, c. 333, § 3.)

§ 1221. Hearing procedure.

All hearings which are held for the suspension, modification or revocation of license, permit or certification shall be conducted by the Secretary. The licensee, permit holder or certified applicator shall have the right to appear personally, and to be represented by counsel, and to produce evidence and witnesses. The Department shall preserve a full record of the proceeding. A transcript of the record may be purchased by any person interested in such hearing on payment to the Department the cost of preparing such transcript. The Department shall notify the licensee, permit holder or certified applicator of its decision in writing within 30 days after the conclusion of the hearing.

(60 Del. Laws, c. 671, § 1; 64 Del. Laws, c. 189, § 6; 84 Del. Laws, c. 42, § 13.)

§ 1222. Appeals.

Any licensee, permit holder or certified applicator who feels aggrieved by an action of the Department in denying, suspending, modifying or revoking his or her license, permit or certification may take an appeal, within 30 days of such action, to the Superior Court, and after full hearing the Court shall make such decree as seems just and proper. Written notice of such appeal, together with the grounds therefor, shall be served upon the Secretary of the Department.

(60 Del. Laws, c. 671, § 1; 70 Del. Laws, c. 186, § 1.)

§ 1223. Reinstatement.

Miscellaneous

§ 1233. Reports of pesticide accidents, incidents or loss.

(a) The Department may by regulation require the reporting of pesticide accidents or incidents to the Department.

(b) Any person claiming damages from a pesticide application shall have filed with the Department on a form prescribed by the Department a written statement claiming that such person has been damaged. This report shall have been filed within 60 days after the date that damage occurred, except that if a growing crop is alleged to have been damaged, the report must be filed prior to the time that 25% of the damaged crop has been harvested. Such statement shall contain, but shall not be limited to, the name of the person allegedly responsible for the application of said pesticide, if known, the name of the owner or lessee of the land on which the crop is grown and for which damage is alleged to have occurred and the date on which the alleged damage occurred. The Department shall prepare a form to be furnished to persons to be used in such cases and such form shall contain such other requirements as the Department may deem proper. The Department shall, upon receipt of such statement, notify the licensee and the owner or lessee of the land or other person who may be charged with the responsibility of the damages claimed, and furnish copies of such statements as may be requested. The Department shall inspect damages whenever possible and when it determines that the complaint has sufficient merit, it shall make such information available to the person claiming damage and to the person who is alleged to have caused the damage.

(c) The filing of such report or the failure to file such a report need not be alleged in any complaint which might be filed in a court of law, and the failure to file the report shall not be considered any bar to the maintenance of any criminal or civil action.

(d) Where damage is alleged to have occurred, the claimant shall permit the Department, the licensee and the licensee's representatives, such as bond agent or insurer, to observe within reasonable hours the lands or nontarget organism alleged to have been damaged in order that such damage may be examined. Failure of the claimant to permit such observation and examination of the damaged lands shall automatically bar the claim against the licensee.

(e) Nothing in this chapter shall be construed to relieve any person from liability for any damage to the person or lands of another caused by the use of pesticides even though such use conforms to the rules and regulations of the Department.

(60 Del. Laws, c. 671, § 1; 64 Del. Laws, c. 189, § 10; 70 Del. Laws, c. 186, § 1; 84 Del. Laws, c. 42, §§ 1, 14.)

(b) Such records shall be kept for a period of 2 years from the date of the application of the pesticide to which such records refer.

(c) Such records shall be made available for inspection to the Department by the licensee or certified applicator upon request in writing by the Department.

When the Department has reasonable cause to believe a pesticide or device is being distributed or used in violation of any of the provisions of this chapter, or any of the prescribed regulations under this chapter, it may issue and serve a written “stop sale, use or removal” order upon the owner or custodian of any such pesticide or device. The pesticide or device shall not be sold, used or removed until the provisions of this chapter have been complied with and the pesticide or device has been released in writing by the Department or the violation has been otherwise disposed of as provided in this chapter by a court of competent jurisdiction. Any such “stop sale, use or removal” order shall remain in effect until the violation has been corrected. The owner or custodian of any such pesticide or device against whom a “stop sale, use or removal” order has been issued, may request a hearing to demonstrate that he or she is in compliance with this chapter or any regulations promulgated thereunder. Such hearing shall be scheduled within 15 days of the request and shall be held by the Secretary of the Department of Agriculture or his or her designee. The burden shall be on the owner or custodian of any such pesticide or device to show compliance. The hearing shall be conducted in accordance with the Administrative Procedures Act of the State. The decision of the Department may be appealed to Superior Court on the record.

Due notice shall be given under this section at least 10 days prior to the public hearing and shall consist of publication in newspapers of general circulation, a registered letter to the Pesticide Advisory Committee and may also be sent to representatives of pesticide application trade associations.

(b) Any lot of commercial feed not in compliance with this chapter or regulations promulgated hereunder shall be subject to seizure on complaint of the Department to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter or regulations promulgated hereunder and orders the condemnation of said commercial feed, the same shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the State; provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

In all prosecutions under this chapter involving the composition of a lot of commercial feed, a certified copy of the official analysis signed by the Department shall be accepted as prima facie evidence of the composition.

(b) Nothing in this chapter shall be construed as requiring the Department or its representative to report for prosecution or for the institution of seizure proceedings as a result of minor violations of this chapter where the public interest will be best served by a suitable notice of warning in writing.

(c) When any violation of this chapter is reported to the Attorney General, the Attorney General shall cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the Department reports a violation for prosecution, an opportunity shall be given the distributor to present the distributor's views to the Department.

(d) The Department may apply for and the court may grant a temporary or permanent injunction restraining any person from violating or continuing to violate this chapter or any rule or regulation promulgated thereunder notwithstanding the existence of other remedies at law. Any injunction shall be issued without bond.

(e) Any person adversely affected by an act, order or ruling made pursuant to this chapter may within 45 days thereafter, bring an action in the Superior Court in the county where the enforcement official has such official's office, for a new trial of the issues bearing upon such chapter, order or ruling, and upon such trial the Court may issue and enforce such orders, judgments or decrees as the Court may deem proper, just and equitable.

Chapter 19

Liming Materials

§ 1901. Title.

This chapter shall be known as “The Delaware Agricultural Liming Materials Act.”
(3 Del. C. 1953, § 1901; 57 Del. Laws, c. 690.)

§ 1902. Enforcing agency.

This chapter shall be administered by the Department of Agriculture of the State, hereinafter referred to as the “Department.”
(3 Del. C. 1953, § 1902; 57 Del. Laws, c. 690.)

§ 1903. Definitions of words and terms.

(a) “Agricultural liming materials” means all suitable materials containing calcium or magnesium in chemical form, physical condition and quantity capable of neutralizing soil acidity.

(b) “Limestone” means a material consisting essentially of calcium carbonate or a combination of calcium carbonate with magnesium carbonate capable of neutralizing soil acidity.

(1) “Calcitic limestone” shall derive a minimum of 36% calcium from calcium carbonate and the calcium carbonate equivalent shall not be less than 90%;

(2) “Dolomitic limestone” shall derive a minimum of 10% of its neutralizing value from magnesium carbonate and a minimum of 20% calcium from calcium carbonate and calcium carbonate equivalent of 90%.

(c) “Burnt lime” means a material, made from limestone which consists essentially of calcium oxide or combination of calcium oxide with magnesium oxide.

(d) “Hydrated lime” means a material, made from lime, which consists essentially of calcium hydroxide or a combination of calcium hydroxide with magnesium oxide and/or magnesium hydroxide.

(e) “Brand” means the term, designation, trademark or other specific designation under which an individual agricultural liming material is offered for sale.

(f) “Fineness” means the percentage by weight of the material which will pass sieves of specified sizes. The fineness shall be measured in reference to 10 mesh and 60 mesh sieves of United States standard designation.

(g) The fineness guarantee is defined as:

- (1) Minimum percentage passing through a 10 mesh sieve;
- (2) Minimum percentage passing through a 60 mesh sieve.

Provided, however, that in lieu of this subsection, the Department may in its regulations set minimum standards for fineness for various grades of liming materials, and such grades, when stated, shall become the minimum guarantees of the liming materials so labeled.

(h) “Ton” means a net weight of 2,000 pounds avoirdupois.

(i) “Percent” or “percentage” means by weight.

(j) “Bulk” means in nonpackaged form.

(k) “Label” means any written or printed matter on or attached to the package or on the delivery ticket which accompanies bulk shipments.

(l) “Person” means individual, partnership, association, firm or corporation.

(3 Del. C. 1953, § 1903; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9.)

§ 1904. Labeling.

(a) Agricultural liming materials sold, offered or exposed for sale in this State shall have affixed to each package in a conspicuous manner on the outside thereof, a plainly printed, stamped or otherwise marked label, tag or statement, or in the case of bulk sales, a delivery slip, setting forth at least the following information:

- (1) The name and principal office address of the manufacturer or distributor;
- (2) The brand or trade name of the material;
- (3) The identification of the product as to the type of the agricultural liming material;
- (4) The net weight of the agricultural liming material;

(5) The minimum percentage of calcium and magnesium.

(b) No information or statement shall appear on any package, label or delivery slip which is false or misleading to the purchaser as to the quality, analysis, type or composition of the agricultural liming material.

(c) In the case of any material which has been adulterated subsequent to packaging, labeling or loading and before delivery to the consumer, a plainly marked notice to that effect shall be affixed by the vendor to the package or delivery slip to identify the kind and degree of such adulteration.

(d) At every site from which agricultural liming materials are delivered in bulk and at every place where consumer orders for bulk deliveries are placed, there shall be conspicuously posted a copy of the statement required by this section for each product.

(e) At any time after July 1, 1970, when the Department finds, after public hearing following due notice, that the requirements for expressing the guaranteed analysis of calcium and magnesium in elemental form would not impose an economic hardship on distributors and users of liming materials by reason of conflicting labeling requirements among the States, the Department may require by regulation thereafter that the "guaranteed analysis" shall contain the minimum percentages of calcium (Ca) and magnesium (Mg) in elemental form and calcium carbonate equivalent.

(3 Del. C. 1953, § 1904; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9.)

(3 Del. C. 1953, § 1905; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9.)

§ 1906. Registration.

Before any person shall sell, offer or expose for sale in this State any agricultural liming material, such person shall for each separately identified product file annually with the Department, on forms supplied by the Department or its authorized agent, an application of registration for each such product setting forth the information required by § 1904 of this title.

(3 Del. C. 1953, § 1906; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9; 70 Del. Laws, c. 186, § 1.)

Each application filed pursuant to § 1906 of this title shall be accompanied by an annual registration fee of \$11.50 per product. Upon compliance with the provisions of this chapter, the registration shall be approved for the period ending on June 30 of the year next following that in which it was issued. No person shall be required to register any agricultural liming material for which a certificate of registration has been filed by the manufacturer or other person responsible for the material.

§ 1908. Inspection fees.

Within the 30-day period following June 30 and December 31 of each year, each registrant shall submit, on a form furnished by the Department or its authorized agent, a semiannual statement setting forth the number of net tons of each agricultural liming material sold by the registrant for use in this State during the previous 6-month period. § 1909. Sampling; analysis.

The Department is empowered, and it shall be the duty of its agent, to sample agricultural liming materials, to analyze them and to report to the registrant the results of its analysis. Results shall become official and public after 10 days. The Department or its authorized agent shall for the purpose of taking samples have full access during business hours to all places where agricultural liming materials are offered for sale. Methods of sampling and analysis shall be taken from among such sources as those recognized by the Association of Official Analytical Chemists. Upon written notice, the Department or its agent may remove from sale any lot of agricultural liming material until it has been determined that the material is in full compliance with this chapter.

(3 Del. C. 1953, § 1909; 57 Del. Laws, c. 690.)

§ 1910. Penalties.

Any person convicted of violating this chapter or the rules and regulations promulgated thereunder shall be fined not less than \$50 nor more than \$200 to be enforced by summary proceedings in a court of competent jurisdiction. Nothing in this chapter shall be construed

as requiring the Department or its authorized agent to report for prosecution, or for the institution of seizure proceedings as a result of, minor violations of this chapter when they believe that the public interest will best be served by a suitable written warning.

(3 Del. C. 1953, § 1910; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9.)

§ 1911. Assessment for deficiency.

(a) If the analysis of any agricultural liming material shall fall as much as, or more than, 10% in value below the value of the manufacturer's guarantee, the Department of Agriculture shall assess twice the value of such deficiency against the manufacturer, dealer or agent who sold such agricultural liming material. The assessment shall be based upon the selling price of such agricultural liming material, and the Department of Agriculture shall require the manufacturer, dealer or agent to make good such assessment to all persons who purchased such lot of agricultural liming material from which such deficient sample or samples were drawn, take receipt therefor and forward it promptly to the Department of Agriculture. If the purchaser or purchasers cannot be found, the amount of such assessment shall be paid to the Department of Agriculture who shall transfer such funds to the State Treasurer to be credited to the General Fund of this State.

(b) The Department of Agriculture may seize any agricultural liming material belonging to such manufacturer, dealer or agent, if the assessment shall not be paid within 3 months after notice to such manufacturer, dealer or agent has been given by the Department of Agriculture.

(3 Del. C. 1953, § 1911; 57 Del. Laws, c. 690; 57 Del. Laws, c. 764, § 9.)

§ 1912. Rules and regulations.

(a) Each brand and grade of commercial fertilizer shall be registered before being distributed in this State. The application for registration shall be submitted to the Department on a form furnished by the Department, and shall be accompanied by a fee of \$1.15 per each grade of each brand, except those fertilizers sold in packages of 10 pounds or less shall be registered at a fee of \$40 per each grade of each brand. Upon approval by the Department, a copy of the registration shall be furnished to the applicant. All registrations expire on December 31 of each year. The application shall include the following information:

- (1) The net weight;
- (2) The brand and grade;
- (3) The guaranteed analysis;
- (4) The name and address of the registrant.

(b) Each soil conditioner before being distributed in the State will be registered. The application for this registration will include a label or facsimile thereof for said material, and the Department may require proof to substantiate claims made for the material.

(c) Notwithstanding subsections (a) and (b) of this section, a distributor shall not be required to register any commercial fertilizer or soil conditioner which is already registered under this chapter by another person, providing the label does not differ in any respect.

(d) Also, notwithstanding any other provision of this section, a distributor shall not be required to register custom blends of commercial fertilizer or soil conditioner, but shall be required to register the distributor’s firm at a fee of \$100 for each individual facility distributing custom blends in the state and to label such fertilizer as provided in § 2105(b) of this title. (b) A commercial fertilizer formulated according to the open formula method according to specifications furnished by a consumer prior to mixing shall be labeled to show the net weight, guaranteed analysis of each ingredient, and the name and address of the distributor; and after mixing, the guaranteed analysis on the label is to be determined by percentage of weight of a ton the same as is defined under “grade” in § 2103 of this title.

(4) On individual packages of commercial fertilizer or soil conditioners containing 10 pounds or less, there shall be paid, in lieu of the annual registration fee of \$1.15 per each grade of each brand and the inspection fee, an annual registration fee and inspection fee of \$40 for each grade of each brand of fertilizer and soil conditioners sold or distributed. Where a person sells commercial fertilizer or soil conditioners in packages of 10 pounds or less and in packages over 10 pounds, this annual registration and inspection fee of \$40 applies only to that portion sold in packages of 10 pounds or less, and that portion sold in packages over 10 pounds is subject to the same inspection fee as provided in this chapter.

(b) (1) Every person who distributes a commercial fertilizer or soil conditioner in this State shall file with the Department on forms furnished by the Department a semiannual statement for the periods ending December 31, and June 30, setting forth the number of net tons of each commercial fertilizer or soil conditioner distributed in this State during that period. The report shall be due on or before the last day of the month following the close of each period and with such statement the inspection fee shall be filed according to the rate set forth in subsection (a) of this section.

(2) If the tonnage report is not filed and the payment of inspection fee is not made within 30 days after the end of each period, a surcharge equal to 10%, with a minimum of \$10, per month of the amount shall be assessed against the registrant, and the Department shall have a lien against the registrant for the amount owed, including surcharge.

(c) When more than 1 person is involved in the distribution of a commercial fertilizer or soil conditioner, the last person who has the fertilizer or soil conditioner registered and who distributes to a nonregistrant dealer or consumer, is responsible for reporting the tonnage and paying the inspection fee, unless the report and payment have already been submitted by a prior distributor of a fertilizer or soil conditioner.

(d) The Department may not disclose publicly any information furnished under this section in such a way as to divulge confidential information about the business operation of anyone.

(e) Fees collected under this section must be used for the payment of the costs of inspection, sampling, and analysis, and other expenses necessary for the administration of this chapter.

(3 Del. C. 1953, § 2106; 58 Del. Laws, c. 157; 83 Del. Laws, c. 140, § 1; 83 Del. Laws, c. 283, § 2.)

§ 2107. Inspection; sampling; analysis.

(a) It shall be the duty of the Secretary to sample, inspect, and test commercial fertilizers or soil conditioners distributed within this State at any time and place and to such an extent as the Secretary may deem necessary to determine whether such commercial fertilizers or soil conditioners are in compliance with the provisions of this chapter. The Secretary, individually or through the Secretary's agent, is authorized to enter upon any public or private premises or carriers during regular business hours in order to have access to commercial fertilizers or soil conditioners subject to the provisions of this chapter and the rules and regulations pertaining thereto, and to the records relating to their distribution; provided, however, that the action of the Secretary or the Secretary's agent hereunder shall be with the consent of the person having control over the property in which such fertilizer or soil conditioner is kept, and if without such consent, then the Secretary or the Secretary's agent is to obtain a valid search warrant therefor, specifying the premises to be searched and the purpose of the search, and setting forth probable cause.

(b) The methods of analysis and sampling shall be those adopted by the Association of Official Analytical Chemists International. In cases not covered by such methods, or in cases where methods are available in which improved applicability has been demonstrated, the Secretary may adopt such appropriate methods from other sources.

(c) The Secretary, in determining for administrative purposes whether any commercial fertilizer is deficient in plant food, shall be guided solely by the "official sample" as defined in § 2103 of this title, and obtained and analyzed as provided for in subsection (b) of this section.

(d) The results of official analysis of commercial fertilizers or soil conditioners and portions of official samples shall be distributed by the Secretary as provided in the regulations.

(3 Del. C. 1953, § 2107; 58 Del. Laws, c. 157; 70 Del. Laws, c. 186, § 1; 83 Del. Laws, c. 140, § 1; 84 Del. Laws, c. 42, §§ 1, 16.)

§ 2108. Plant food deficiency.

(a) If analysis shows that a commercial fertilizer is deficient in 1 or more of its guaranteed primary plant foods (NPK) beyond the "investigational allowances" as established by published regulation, or if the overall index value of the fertilizer is below the level established by regulation, a penalty of 2.3 times the commercial value (as defined in § 2109 of this title) of such deficiency(s) shall be assessed. When a fertilizer is subject to a penalty under both, the larger penalty payment shall apply.

(b) Deficiencies beyond the investigational allowances as established by regulation as provided in subsection (a) of this section in any other constituent(s) covered under § 2103(8)b., c., and d. of this title, which the registrant is required to or may guarantee, shall be evaluated and penalties prescribed therefor by the Secretary by published regulation.

(c) All penalties assessed under this section shall be paid to the consumer of the lot of commercial fertilizer represented by the sample analyzed within 3 months after the date of notice from the Secretary to the registrant, receipts taken therefor and promptly forwarded to the Secretary. If said consumers cannot be found, the amount of the penalty shall be paid to the Department which shall deposit same in the General Fund.

(d) A deficiency in an official sample of mixed fertilizer resulting from nonuniformity is not distinguishable from a deficiency due to actual plant nutrient shortage and is properly subject to official action.

(c) Yield goals shall be used to determine nitrogen application rates as appropriate. Recommended nitrogen application rates cannot exceed the application rates published by the University of Delaware of the specific crop, unless an adaptive approach is used to adjust in-season nitrogen application rates based on recommendations from a certified consultant or a Commission approved nitrogen application model.

(d) All animal waste management plans, nutrient management plans and records of implementation shall be kept by the land owner or person responsible for the plans or records. Animal waste management plans, nutrient management plans and records of implementation

Notwithstanding the foregoing, animal waste management plans, nutrient management plans and records of implementation may be retained, disclosed and made public as provided for in § 2248 of this title.

(e) Nutrient management plans shall be updated a minimum of every 3 years or upon significant alterations in facility operations, or upon a 25% or greater increase in facility operations. Such plans shall be reported to the Commission no later than December 15 of the year in which it must be updated.

(f) If a person implementing a nutrient management plan intends to store manure, other than in an approved manure storage structure or facility, such outdoor storage shall:

- (4) Be at least 200 feet from any residence that is not located on the person's property; and
- (5) Be at least 6 feet high and in a conical shape.

(g) In situations where persons other than the land owner are responsible for nutrient applications, nutrient management plans as required in this section shall be the responsibility of the person actually managing the application of nutrients to that property.

(h) Upon completion and implementation of a nutrient management plan, the owner/operator/planner shall notify the Commission within 60 days of the completion of the plan.

(i) In the event of circumstances that are beyond the control of the person implementing a nutrient management plan pursuant to this section, such person shall notify the Department of any actions such person intends to take as a result of those circumstances.

(j) In the case of animal feeding operations where no other nutrients are used for farming and the animal waste is not land-applied, the operator of the facility may substitute an animal waste management plan for a nutrient management plan. At a minimum, the animal waste management plan shall include:

- (1) Information concerning how the waste is stored prior to transport;
- (2) Records of where and to whom the animal waste was transported and the amount of such waste; and

(l) County, municipal and industrial facilities discharging solid or liquid waste and permitted by the Department of Natural Resources and Environmental Control under The Guidance and Regulations Governing the Land Treatment of Wastes shall be exempt from the provisions of this chapter. Provided, however that they provide the Commission with an annual report as required by their land treatment permit.

§ 2248. Confined animal feeding operations subject to Clean Water Act § 402 requirements.

(a) Section 301(a) of the Clean Water Act (CWA) [33 U.S.C. § 1311] establishes statutory requirements for the discharge of pollutants from point sources to waters of the United States. Under CWA § 502(14) and implementing regulations "concentrated animal feeding operations" are point sources subject to the National Pollutant Discharge Elimination System (NPDES) program. The Regulations Governing the Control of Water Pollution, § 9.5 Concentrated Animal Feeding Operation, 7 DE Admin. Code 7201-9.5, 14 Del. Reg. 482 (November 2010), as may be amended, are hereby ratified and approved. Said regulations, together with the State Technical Standards, are fundamental components of the CAFO NPDES Program. Nothing in this section shall be construed to require ratification or approval of any additions, deletions, revisions or amendments of any regulations enacted pursuant to this section at any time.

(b) The Secretaries of the Delaware Department of Agriculture (DDA) and the Department of Natural Resources and Environmental Control (DNREC) shall have authority to jointly promulgate and amend regulations for the CAFO NPDES Program, including but not

limited to the authority to determine the extent to which any nutrient management plan (NMP), annual report, or other documents required to be submitted by a concentrated animal feeding operation permitted under the CAFO NPDES Program, shall be made public or not, and the authority to require any concentrated animal feeding operation to apply for and obtain an NPDES CAFO permit.

(c) Each person or concentrated animal feeding operation covered by this section or identified as requiring an NMP by DDA and DNREC shall develop and submit the requisite, signed NMP, on such terms and conditions as may be specified by DDA or DNREC. The NMP shall be developed in accordance with the provisions of § 2247 of this title, provided, however, that DNREC and DDA may prescribe additional or different requirements for an NMP submitted under the CAFO NPDES Program. As necessary, the NMP shall include the following additional site specific handling and storage considerations:

- (1) Diverting clean water from contacting animal waste or litter.
- (2) Preventing storage, collection and conveyance systems from leaking organic matter, nutrients and pathogens to ground or surface water.
- (3) Providing adequate storage to prevent polluted runoff.
- (4) Handling manure and litter to reduce nutrient losses.
- (5) Managing dead animals to protect ground and surface waters.
- (6) Proper chemical handling.
- (7) Tillage and crop residue management practices.

The NMP shall be amended pursuant to § 2247 of this title or whenever there is any significant change in the design, construction or operation which has a significant effect on the potential for the discharge of pollutants to state waters, or as may be otherwise required by regulation.

(d) The Memorandum of Agreement between DDA and DNREC dated December 16, 2010 (MOA), is hereby ratified and approved. DDA has authority to fulfill the terms of the MOA, to undertake all actions ancillary to the MOA, and otherwise to contribute to the CAFO NPDES Program.

(e) The Secretary shall notify a person in writing that an NPDES permit is required. Such notice shall include a brief statement of the reasons for the decision, an application form, a deadline for submission of the application and a statement regarding the effective date of coverage. A person's obligation to independently seek and secure an NPDES permit is not conditioned upon or qualified by the Secretary's duty to notify a person that an NPDES permit is required.

§ 2249. Nutrient Management Funding.

Funds appropriated to the Nutrient Transport Program, in the annual operating budget act are intended to support projects that transport poultry and animal waste, including litter, for alternative use projects and for transporting the poultry and animal waste to cropland showing a need for these nutrients as indicated by a nutrient management plan. It is intended that a portion of these funds will be use to remove the nutrients from Delaware and for farm to farm relocation within Delaware. Reimbursement of transportation shall not exceed \$20 per ton of poultry or nonpoultry waste. The program shall be developed and implemented by the Delaware Department of Agriculture according to the guidelines established by the Delaware Nutrient Management Commission as provided for under § 2220(a)(4) of this title. Any appropriation to the Nutrient Management Contingency shall be used for the sole purpose of nutrient relocation and/or nutrient management planning pursuant to these guidelines.

(73 Del. Laws, c. 322, § 3.)

The Secretary may uphold the action of the Commission, remand the decision back to the Commission for further consideration, or repeal the action of the Commission. The Secretary may appoint a hearing officer, who shall hold a hearing pursuant to the Administrative Procedures Act. The Secretary's decision shall be based solely on the record developed by the Commission at the hearing unless the Secretary finds that additional evidence should be taken. If the Secretary finds that additional evidence should be taken, the Secretary may take the additional evidence or remand the cause to the Commission for completion of the record.

(b) All decisions of the Secretary on appeals brought pursuant to this section shall be final and conclusive unless within 10 days after notice thereof, a party appeals to the Superior Court of the county in which the violation occurred. In every appeal from a decision of the Secretary, the cause shall be decided by the Court on the record without aid of the jury and may affirm, reverse or modify the Secretary's

decision. The findings of fact made below shall not be set aside unless the Court determines that the record contains no substantial evidence that would reasonably support the findings. If the Court finds that additional evidence should be taken, the Court may take the additional evidence or remand the cause to the Secretary for completion of the record. Chapter 26

Commercial Forest Plantations

§ 2601. Commercial forest plantation.

(a) A commercial forest plantation within the meaning and purpose of this chapter is a contiguous area of land of not less than 10 acres upon which the owner proposes to develop and maintain a forest either through planting or natural reproduction or both, to produce timber, pulpwood, poles, sawtimber or other wood products. Such land shall at the time of listing as a commercial forest plantation actually carry sufficient forest growth of suitable character and so distributed as to give reasonable assurance that a stand of merchantable timber will develop therefrom, as determined by the State Forester. The intent and purpose of this section is to exclude from classification as a commercial forest plantation land planted as a nursery, as an orchard, or for ornamental purposes.

(b) Any landowner who establishes a commercial forest plantation, as defined in this chapter, and otherwise complies with this chapter shall be entitled to a 30-year exemption from county property taxes on such plantation.

(72 Del. Laws, c. 235, § 3.)

§ 2602. Application for exemption; requirements; examination.

Any owner of a commercial forest plantation may make application to the Department of Agriculture to have such land listed for tax exemption. In making such application, such owner shall file with the Department of Agriculture a sworn statement of compliance with this chapter together with the location, description and acreage of the planted lands or the naturally reforested lands. Additionally, all applications for tax exemption must be accompanied by a forest management plan approved by the State Forester. The Department of Agriculture, upon receipt of such application, shall direct the State Forester to make or cause to be made a thorough examination of the property described in the application and report the findings to the Department of Agriculture.

(72 Del. Laws, c. 235, § 3; 70 Del. Laws, c. 186, § 1.)

§ 2603. Removal of exempt commercial forest plantation from county assessment books.

If the Department determines from the report of the State Forester that the owner has complied with the purpose of this chapter, namely, to develop and maintain upon the owner's land a commercial forest, the Department shall recommend to the assessment board in the county wherein the lands are situated that the enrolled forested lands be removed from the list of assessable property for the period of 30 years, and thereupon the enrolled forested property shall be removed from the list of assessable property for the exemption period, except as provided in this chapter. An owner that maintains a commercial forest plantation in compliance with this chapter for 30 years may reapply for county tax exemption on the plantation in accordance with § 2603 of this title. This will constitute a new 30-year period of tax exemption on the plantation.

(72 Del. Laws, c. 235, § 3; 70 Del. Laws, c. 186, § 1.)

§ 2604. Voluntary withdrawal of land from exempt status; requirements.

Any owner of land listed as commercial forest plantation desiring to withdraw said land from operation of this chapter shall make written application to the Department of Agriculture for such withdrawal. Such application shall be granted only upon evidence that the owner has paid to the county treasurer the amount of tax due on said land as determined by the county board of assessment. The board of assessment shall determine the average value per year of the lands, notwithstanding Chapter 83 of Title 9, during the current period of exemption from taxation and, further, shall determine the amount of tax due on the lands calculated according to the several yearly tax rates at the average valuation. Upon presentation to the Department of Agriculture of the application as provided in this section, the Department of Agriculture shall at once notify the county board of assessment of such action and thereupon the property described in the application shall be removed from classification and thereafter taxed as other property.

(72 Del. Laws, c. 235, § 3.)

§ 2605. Restrictions on use of timber.

The owner of any land listed under this chapter may fell and use any dead or injured timber and also cut and remove any live trees when such have been marked for removal with the approval and under the supervision of the Department of Agriculture.

(72 Del. Laws, c. 235, § 3.)

§ 2606. Inspections.

The State Forester shall make periodic inspections of classified forest plantations and shall report the findings in writing to the Department of Agriculture. If the State Forester finds that the owner of listed lands has violated this chapter or has neglected or refused to take proper precautions against damage by fire or grazing, or otherwise, the State Forester shall recommend to the Department the removal of said property from classification as commercial forest plantation land.

(72 Del. Laws, c. 235, § 3; 70 Del. Laws, c. 186, § 1.)

§ 2607. Removal of lands from exempt status by Department; notice; hearing; appeal.

(a) If the State Forester recommends the removal of any lands from classification as commercial forest land, the Department of Agriculture shall notify the owner of the time and place of hearing upon such recommendation, which shall not be less than 10 days from the date of notice. The owner of the lands shall be entitled to be heard before the Department in person or by attorney and shall be allowed to present any pertinent evidence. The Department shall thereupon determine the matter and shall either approve or disapprove the recommendation of the State Forester. If the recommendation of the State Forester is approved by the Department, the Department shall notify the county board in writing of assessment thereof, and the board of assessment shall immediately restore the lands to the assessment lists. The board shall also determine the amount of tax due upon the lands, notwithstanding Chapter 83 of Title 9, according to the average valuation of the lands at the tax rates prevailing during the current period of exemption. The total amount of taxes as calculated shall be certified to the receiver of taxes and county treasurer of the county for collection as other taxes are collected, but with no penalty attached thereto.

(b) The owner of such lands may appeal from the decision of the Department to the Superior Court of the county by filing with the Prothonotary a certified copy of the recommendation of the State Forester as filed with the Department and the determination of the Department with respect thereto. The certification shall be made by the State Forester. Such appeal shall be filed within 2 terms next after the determination of the matter by the Department, or the right of appeal shall be lost.

(c) Prior to the sale or other transfer of rights of land or perpetual timber rights subject to an approved forest management plan, the transferor of land shall notify the transferee of the existence and nature of the plan and the transferee shall sign a notice of forest management obligation indicating the transferee's knowledge thereof.

(1) The notice shall be on a form furnished by the Department of Agriculture Forest Service and shall be sent to the Department of Agriculture by the transferor at the time of sale or transfer of rights of land or perpetual timber rights.

(2) If the transferor fails to notify the transferee about the forest management obligation, the board of assessment shall immediately restore the lands to the assessment lists. The board shall also determine the amount of tax due upon the lands according to the average valuation of the lands at the tax rates prevailing during the period of exemption. The total amount of taxes as calculated shall be certified to the receiver of taxes and county treasurer of the county for collection as other taxes are collected, but with no penalty attached thereto. All taxes due for the period of exemption shall be assessed to the transferor.

(3) Failure by the transferor to send the required notice to the Department of Agriculture at the time of the sale shall be prima facie evidence that the transferor did not notify the buyer of the forest management obligation prior to sale.

A composite sample shall contain a preservative and it shall contain aliquot parts from each lot of milk collected. The preservative must be capable of keeping the composite sample in suitable condition for testing for a period of at least 30 days. If the producer desires a retest, such request shall be made directly to the milk plant or through the field man within 24 hours after the receipt of the butterfat test. The retest shall be made immediately and reported to the producer.

(d) The Department of Agriculture may at any time require out-of-state milk plants to deliver 1 or all composite samples to the Department of Agriculture laboratories for retesting purposes. An alternative shall be for the out-of-state milk plant to grant the Department of Agriculture or its agents permission to enter its plant for the purpose of taking samples for rechecking purposes. Subchapter V

Dealers' and Handlers' Bonds

§ 3161. Requirement of bond; amount.

(a) No milk dealer or handler shall purchase, acquire or receive on consignment or otherwise milk from producers unless the milk dealer or handler has filed with the Department of Agriculture a corporate surety, individual surety, or collateral bond, approved by such Department.

(b) Except as otherwise herein provided, the bond required by subsection (a) of this section shall be in a sum equal to the value of the highest aggregate amount of milk purchased, acquired or received by the dealer or handler from producers in any 1 month during the preceding calendar year, which value shall be computed according to such milk dealer's or handler's posted prices for such month, and shall not in any event exceed \$100,000.

(c) The bond required by subsection (a) of this section shall be upon a form prescribed by the Department of Agriculture, conditioned for the payment by the milk dealer or handler of all amounts due, including amounts due under this subchapter and the orders of such Department, for milk purchased or otherwise acquired from producers by the milk dealer or handler during the license year, upon such terms and conditions as the Department may prescribe.

(d) In the case of a milk dealer or handler who pays producers in full each week for milk purchased, acquired or received by the milk dealer or handler from such producers, the bond required by subsection (a) of this section shall be in a sum equal to 50 percent of the value of the highest aggregate amount of milk purchased, acquired or received by the dealer or handler from producers in any 1 month during the preceding calendar year, which value shall be computed according to such milk dealer's or handler's posted prices for such month, and shall not in any event exceed \$50,000.

(Code 1935, § 654A; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3161; 57 Del. Laws, c. 764, § 12; 84 Del. Laws, c. 42, § 22.)

§ 3162. Computation of amount; milk from another state.

Milk purchased, acquired or received by a milk dealer or handler from producers outside the State and sold or distributed by such dealers or handlers as fluid milk within the State, shall be included in computing the amount of such dealer's or handler's bond, except where such dealer or handler has filed a bond for the protection of such producers within the state wherein the milk is purchased, acquired or received or with such producers. In such computation, the amount due for such milk shall be determined according to any applicable official prices or any lawful contract price.

(Code 1935, § 654B; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3162.)

§ 3163. Filing by dealer not engaged in business during preceding year.

A milk dealer or handler purchasing or acquiring or receiving or intending to purchase, acquire or receive milk from producers, but not so engaged during any month of the preceding calendar year, shall file a bond in a reasonable sum to be fixed by the Department of Agriculture, and within the time for filing his or her application such dealer or handler shall request the Department to fix such sum.

(Code 1935, § 654B; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3163; 57 Del. Laws, c. 764, § 12; 70 Del. Laws, c. 186, § 1.)

§ 3164. Time of filing; period effective.

(a) The bond required in this subchapter shall be filed with the dealer's or handler's application for a license, and shall be filed within the time for filing such application.

(b) The bond shall become effective upon its being filed with the Department of Agriculture for the entire license year, or for that part of the license year in which the milk dealer or handler became engaged in the milk business. Any bond filed with the Department shall become effective upon being filed, whether or not it is approved by the Department, and shall no longer be of effect during the license year only when it has been replaced by a bond approved by the Department to be substituted therefor. The bond required in this subchapter shall be an obligation independent of the granting of a license and shall remain in full force and effect for and during the license year designated, as long as the dealer or handler purchases or receives milk from producers or is indebted to pay producers for any milk delivered during said license year, whether or not a license is granted the milk dealer or handler or a license granted the milk dealer or handler remains in force.

(c) The Department of Agriculture shall determine within a reasonable time after the close of a license year which milk dealers or handlers have paid all amounts protected by their bonds filed with the Department, and if the Department finds that all amounts protected by the bond of a milk dealer or handler have been paid, it shall thereafter return the bond for said past license year to each such milk dealer or handler.

(Code 1935, § 654C; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3164; 57 Del. Laws, c. 764, § 12.)

§ 3165. Surety requirements.

(a) A corporate surety bond shall be executed to the State by the milk dealer, as principal, and by a corporate surety company. The Department of Agriculture shall have no power to reject any corporate surety bond which is so executed by a corporate surety company authorized to do business in this State as surety.

(b) An individual surety bond shall be executed to the State by the milk dealer, as principal, and by 1 or more individuals, as surety or sureties, who shall have sole title to real estate, the fair valuation of which, free and clear, or in excess of all encumbrances, shall be at least equal to the amount of the bond.

(c) A collateral bond shall be executed to the State by the milk dealer, as principal, shall set forth therein the collateral posted with such bond, and shall have attached thereto the collateral properly assigned and transferred to the State. The collateral posted with such bond shall be cash in an amount equal to the amount of the bond; or such bond shall be secured by an actual deposit with the Department of Agriculture, or with a bank, bank and trust company, or national bank within the State, of money to the full amount of the bond; or by securities to such amount, consisting of interest-bearing obligations of the United States government, of this State, or of any political subdivision of this State, or by any other security or securities approved by the Department of Agriculture. The security or securities deposited therewith shall constitute a trust fund for producers from whom the dealer purchases milk.

(Code 1935, § 654D; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3165; 57 Del. Laws, c. 763, § 12.)

§ 3166. Substitutions.

The Department of Agriculture may grant to any milk dealer or handler the authority to substitute for any bond, surety or any collateral, another bond, surety or other collateral, provided that such other bond, surety, or collateral meets all the requirements of this subchapter.

(Code 1935, § 654D; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3166; 57 Del. Laws, c. 764, § 12.)

§ 3167. Financial statement; acceptance in lieu of surety.

(a) A milk dealer or handler shall, from time to time, when required by the Department of Agriculture, make and file with such Department a verified statement of his or her disbursements, or of any other facts in connection with his or her business, during a period to be prescribed by the Department, which financial statement shall contain the names of the producers from whom milk was purchased, acquired, received or handled on consignment or otherwise, the amount due to the producers, and any other relevant facts required by the Department pertinent to the dealer or handler or the dealer's or handler's surety or sureties.

(b) In lieu of, and notwithstanding any and all provisions contained in this subchapter to the contrary, and in particular any and all provisions requiring a milk dealer or handler to file a corporate surety, or individual surety, or collateral bond, the Department of Agriculture may accept of and from any milk dealer or handler who has been continuously engaged in such business in this State for a period of 7 years prior thereto a complete current financial statement of all the assets and liabilities of such dealer or handler, verified under oath by such dealer or handler or an authorized agent thereof; which financial statement shall be in such form and in such detail as the Department prescribes from time to time.

(c) Whoever wilfully falsifies any such financial statement, in whole or in part, is guilty of making a false written statement in violation of § 1233 of Title 11 and shall be punished accordingly.

(d) If the Department of Agriculture determines from the financial statement that the fair net worth of the milk dealer or handler is at least equal to the amount of corporate surety, or individual surety, or collateral bond which such milk dealer or handler would otherwise be required to file, the Department may accept such milk dealer's or handler's bond and financial statement without requiring any corporate or individual surety thereon or collateral to be posted therewith.

(Code 1935, § 654E; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3167; 57 Del. Laws, c. 764, § 12; 70 Del. Laws, c. 186, § 1.)

§ 3168. Increase of bond.

If it appears from the dealer's or handler's financial statement, or from facts otherwise ascertained by the Department of Agriculture, that the bond afforded to producers selling, supplying or making available on consignment or otherwise milk to such milk dealer or handler does not adequately protect such producers, the Department may require such milk dealer or handler to procure an additional surety, or to give an additional bond or additional security for the collateral bond, in a sum to be determined by the Department, which:

(1) Shall not exceed more than 50 percent of the value of the highest aggregate amount of milk purchased, acquired or received on consignment or otherwise by the dealer or handler from producers in any 1 month during the preceding or current year, which value shall be computed according to the prices applicable; or

(2) Shall be a sum not exceeding by more than 50 percent the amount found to be due and owing producers by such dealer on a particular date determined by the Department,

whichever sum is greater, but the total increase shall not in any event exceed \$50,000. In the case of a milk dealer or handler who pays producers in full each week for milk purchased, acquired or received or handled on consignment or otherwise by the milk dealer or handler from such producers, any increase required hereunder shall not exceed more than 25 percent of such value or amount, but the total increase in any event shall not exceed \$25,000.

(Code 1935, § 654F; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3168; 57 Del. Laws, c. 764, § 12; 84 Del. Laws, c. 42, § 23.)

§ 3169. Decrease in bond.

The Department of Agriculture may grant a reduction of the bond or the collateral, or release an additional surety, if it appears that owing to a decrease in the milk purchased, received or handled by the dealer or handler, or to other causes, a bond in a lesser amount or with fewer sureties will protect producers selling, supplying or making available milk to such milk dealer or handler.

(Code 1935, § 654F; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3169; 57 Del. Laws, c. 764, § 12.)

§ 3170. Bonds, collateral, etc., deposited with State Treasurer.

All bonds, together with any moneys, or securities given as collateral therefor, received by the Department of Agriculture from milk dealers pursuant to the provisions of this subchapter, shall be transmitted by the Department to the State Treasurer for safekeeping subject to withdrawal in whole or in part at any time by the Department.

(Code 1935, § 654G; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3170; 57 Del. Laws, c. 764, § 12.)

§ 3171. Income from collateral.

The milk dealer or handler shall be entitled to all moneys received by the State Treasurer as interest or dividends upon any security or securities deposited by such milk dealer or handler with the Department of Agriculture and transmitted by the Department to the State Treasurer for safekeeping, in accordance with this subchapter. The milk dealer or handler shall not be entitled to interest or dividends if there is on file with the Department a valid unpaid claim of a producer against the milk dealer or handler, based on milk sold, supplied or made available by such producer to the milk dealer or handler.

(Code 1935, § 654H; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3171; 57 Del. Laws, c. 764, § 12.)

§ 3172. Suit upon bond.

The Department of Agriculture may sue on the bond on behalf of producers. Suit may be brought in the name of the State upon relation of the Department of Agriculture or of the Attorney General, in such manner as debts are by law recoverable.

(Code 1935, § 654I; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3172; 57 Del. Laws, c. 764, § 12.)

§ 3173. Order of Department of Agriculture.

If, by valid formal order refusing, suspending or revoking a license, after hearing with due notice to all those liable on the bond, the Department of Agriculture has found a milk dealer or handler to be indebted thereunder, such order and the findings of fact in support thereof shall be conclusive evidence of the amount due under such bond in a suit thereon by the Department, unless an appeal therefrom is pending and a supersedeas granted.

(Code 1935, § 654J; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3173; 57 Del. Laws, c. 764, § 12.)

§ 3174. Distribution of proceeds of bond or collateral.

The Department of Agriculture shall prescribe the procedure for the payment, out of the proceeds of any bond or collateral required by this subchapter, of the amounts found due to producers or handlers or dealers, based on sales or deliveries of milk by them to a milk dealer or handler who has posted a bond or collateral. If the proceeds of a bond or of collateral which has been posted by a milk dealer or handler shall be insufficient to pay in full the amounts due to producers who have sold or supplied milk to such milk dealer or handler, the moneys available shall be divided pro rata among such producers.

(Code 1935, § 654K; 48 Del. Laws, c. 376, § 1; 3 Del. C. 1953, § 3174; 57 Del. Laws, c. 764, § 12.)

§ 6301. Powers and duties of Department.

The Department may execute contracts for the preparation, publication and dissemination of information for the promotion of the poultry industry in the State. The Department may also undertake studies on disease control, regulatory activities and various types of experimental and extension activities which may in its opinion be deemed beneficial to the poultry industry. All money expended for experimental and extension activities shall be in cooperation with the Agricultural Experimental Station and Extension Service of the University of Delaware. The Department may expend any share of the funds appropriated to its use for advertising, education and other mediums for the promotion of state poultry and poultry products, with the understanding that during periods of overproduction, decreased consumer-demand and other conditions resulting in poultry markets unfavorable to the grower, the moneys at its disposal should be used largely, if not entirely, for advertising and other sales promotional activities in the interest of state poultry and state poultry products.

(47 Del. Laws, c. 356, § 1; 3 Del. C. 1953, § 6103; 57 Del. Laws, c. 764, § 20B.)

When the state inspection shows freedom from disease and the meeting of standards for poultry flocks and chick hatcheries, which standards the Department of Agriculture may establish, the Department may issue certificates to the owners showing that the standards have been met. The Department may make rules and regulations for the management and care of flocks. When hatcheries in this State use for hatching purposes eggs from flocks of poultry which have been certified, such hatcheries, upon compliance with all rules and regulations of the Department of Agriculture, shall be issued certificates setting forth the classification of their hatcheries. The Department may make rules and regulations for the movement, sale, labeling and advertising of all chicks, eggs and poultry produced by flocks and hatcheries under state supervision as aforesaid.

Upon such request, the Department of Agriculture shall assign a federal, state or accredited veterinarian to administer the vaccine furnished by the Department. The Department shall make the necessary rules and regulations for handling and use of the vaccine.

Any and all reactors found as a result of the test shall be tagged with react tags, the numbers of which shall be recorded, and shall remain on the premises unless removed for immediate slaughter at an establishment where federal meat inspection is maintained. At the time of such removal, reactors shall be branded with a "B" brand not more than 3 nor less than 2 inches high and a permit issued for removal to slaughter. Reactors found in informational tests shall not be eligible to indemnity unless the owner adopts the test and slaughter plan and fully observes the regulations governing operation under the plan.

All animals which show a positive reaction to this test shall be identified by a "reactor" ear tag and brand, and shall be slaughtered, under federal or state supervision. Animals showing a suspicious reaction to the agglutination test shall be held for 60 days and retested.

All cattle which are condemned for Bang's disease shall be appraised in a manner prescribed by the Department of Agriculture. No payment as compensation for any animal with Bang's disease destroyed shall exceed two thirds of the difference between the appraised value of such animal and the value of the salvage thereof. In no case shall any payment hereunder be more than \$125 for any grade animal or more than \$150 for any purebred animal, and no payment shall be made unless the owner has complied with all lawful quarantine regulations.

§ 7332. Quarantine and testing of modified accredited areas.

When 75 percent of the cattle owners in any county, hundred, district, or other designated area have tested herds of cattle or have made application to have their herds tested and are sufficiently interested in the work to cooperate with the Department of Agriculture to the

extent of making such county, hundred, district, or other designated area become a “modified accredited area,” and to comply with the state and federal regulations in order to keep their own herds clean and to bring into such area only cattle which have been tested in accordance with the state and federal regulations, the Department of Agriculture may, when it deems such action advisable and expedient, serve notice that such area shall be placed under quarantine and the Department shall commence Bang’s disease testing under the area plan without expense to the owner, to the extent of funds available, providing the owners agree to comply with this subchapter and all orders, rules and regulations formulated thereunder.

When the owner of such cattle has complied with all rules and regulations or orders of the Department of Agriculture, the Department may remove the quarantine.

(c) *Vaccination of ferrets.* — Any person owning a ferret 6 months of age or older in this State shall have the ferret vaccinated against rabies by a licensed veterinarian; exemption from vaccination against rabies may be permitted if a licensed veterinarian has examined the animal and based on the veterinarian's professional judgment has certified in writing that at the time, vaccination would endanger the animal's health because of its infirmity, disability, illness, or other medical considerations and a titer test, in the case of these medical exemptions, may be administered to assist in determining the need for the vaccination. The owner of the ferret is responsible for keeping a valid rabies vaccination certificate or exemption certificate in that owner's possession for inspection by an animal welfare officer, the Department, or the Division. Certification that the animal is exempt from vaccination shall be valid for a period of 1 year from the date of the issuance of the certificate of exemption, after which time the animal shall be re-examined by a licensed veterinarian and vaccinated against rabies or a new certificate of exemption shall be issued to the animal's owner.

(e) Any form necessary to implement this section shall be designed by the Department of Agriculture and made available to licensed veterinarians.

(f) *Duties of veterinarian.* — (1) Each licensed veterinarian may select a rabies vaccine of their choice and use procedures for administering it consistent with the recommendations of the Veterinary Biologics Division of the U.S. Department of Agriculture which licenses that vaccine.

(2) A rabies vaccination certificate will be promptly issued to the owner of each dog, cat, or ferret vaccinated against rabies. The licensed veterinarian administering the vaccine shall complete the certificate specifying accurately the manufacturer's specifications of the duration of immunity of the rabies vaccination used and the date the animal shall be revaccinated in accordance with the specific criteria of the Compendium or as mandated by Delaware state law. The licensed veterinarian shall sign the certificate in a legible manner. The certificate shall also include the veterinarian's address, telephone number, and state license number. Veterinarians shall maintain copies of these certificates for a minimum of 12 months after the effective expiration date of the vaccination.

(g) *Public antirabies clinics.* — The Compendium will serve as a basis for the procedures and practices used in public antirabies clinics. The Department or the licensed veterinarian selected to administer the vaccine at the public antirabies clinic will be consulted on the specific rabies vaccine or vaccines that shall be used at those clinics. All administrative procedures and personnel, excluding veterinary staffing, will be approved by the State Veterinarian. The responsible organization conducting the public antirabies clinic will be responsible for maintaining copies of these certificates for a minimum of 12 months after the effective expiration date of the vaccination.

(c) *Release of quarantine following suspected rabies exposure to dogs, cats, and ferrets by dogs, cats, or ferrets.* —

In the event that the owner of the animal suspected of being exposed to rabies can attest to the Department that the biting animal is alive and not displaying clinical signs of rabies at 10 days following the date of suspected exposure, the quarantine for the bitten animal can be released.

(d) *Vaccinated within 28 days of exposure.* —

A dog, cat, or ferret that has received its initial vaccination against rabies within 28 days prior to the exposure or suspected exposure is considered unvaccinated for the purposes of quarantining the animal pursuant to this chapter, but not for the purpose of meeting the rabies vaccination requirement included in this chapter.

(e) *Reporting of conditions of quarantine.* —

(1) The owner of a dog, cat, or ferret controlled and observed or strictly quarantined pursuant to this chapter is responsible for reporting truthful and factual information to the Department or a licensed veterinarian, if that dog, cat, or ferret shows marked behavior changes, escapes, sickens, or dies during the quarantine period. If the quarantined animal dies, escapes, or for any other reason is not available to complete the quarantine period, the owner shall notify the Department by telephone within 12 hours and complete a signed,

The cost of quarantine in this instance is to be borne by the owner of the dog, cat, or ferret.

(3) If the owner of that dog, cat, or ferret cannot show proof of a valid rabies vaccination, the quarantine period shall be extended beyond the 10 days until such time that the dog, cat, or ferret has been examined by a licensed veterinarian and a rabies vaccine has been administered to that dog, cat, or ferret by a licensed veterinarian. The dog, cat, or ferret must not be vaccinated during the initial 10-day strict quarantine period.

(4) In cases where the behavioral disposition of the dog, cat, or ferret poses a public health danger which renders quarantine of the animal unsafe for its caregivers, the Division, in consultation with the Department and the attending veterinarian, may elect to forego the 10 day strict quarantine and euthanize the patient and submit the brain for rabies testing.

(b) *Quarantine after notice of exposure.* — An owner who fails to place under strict quarantine any dog, cat, or ferret that exposes a human being to rabies after being notified that the exposure occurred and of the quarantine requirements must quarantine the dog, cat, or ferret in an approved place and manner. Any association may, upon resolution adopted by its board of directors, enter into all necessary and proper stipulations, agreements, contracts, and arrangements with any other cooperative corporation, association or associations, formed under this chapter or otherwise, for the cooperative and more economical carrying on of its business, or any part or parts thereof; or any 2 or more cooperative associations, formed under this chapter or otherwise, may, upon resolutions adopted by their respective boards of directors, for the purpose of more economically carrying on their respective businesses, by agreement between them, unite in employing and using, or several such associations may separately employ and use, the same methods, means and agencies, which agencies may be another such association or associations for carrying on and conducting their respective businesses;

(41 Del. Laws, c. 132, § 5; 3 Del. C. 1953, § 8508.)

§ 8509. Adoption of bylaws.

Within 30 days after the recording of the articles of association in the office of the recorder of deeds, as prescribed in § 8504 of this chapter, a call, signed by not less than a majority of the directors, shall be issued for a meeting of the common stockholders. At such meeting, or any adjourned session or sessions thereof, bylaws regulating the conduct and management of the association shall be adopted.

(41 Del. Laws, c. 132, § 11; 3 Del. C. 1953, § 8509.)

§ 8510. Provisions of bylaws.

Bylaws shall, within the limits of this chapter, prescribe:

(1) The time, place and manner of calling and holding meetings. Meetings of stockholders may be held (a) by a meeting at large at such place as may be designated by the bylaws or action of the board of directors, or (b) by a meeting of delegates elected to represent the stockholders by the respective local or district organizations in such manner as may be provided by the bylaws, or (c) by district or local meetings held in the several districts or locals into which the association has divided itself. Meetings in districts or locals shall be of stockholder members of such districts or locals and need not necessarily be held at the same time in each district or local. The bylaws may provide that the board of directors may take a vote of the stockholders on a specific case or resolution by mail signed or unsigned ballot;

(2) The number of directors; the time and manner of their nomination, election and removal, their powers and duties; the number, not less than a majority, necessary to the exercise of their powers; and the method of fixing their compensation, if any. The board of directors may, by resolution adopted by a majority of the whole board, delegate 2 or more of its number to constitute an executive committee, which, to the extent provided in such resolution, shall have and exercise the authority of the board of directors in the management of the corporation. The bylaws may provide a system for the nomination of directors by a representative body or council, or otherwise, and for their election, either at large or by districts, by votes cast by stockholders in district or local organizations with the return of the votes to the central office for tabulation;

(3) The officers, their terms of office, the time and manner of their appointment, their powers and duties, and the method of fixing their compensation, if any;

(4) Regulations governing the sale, transfer and redemption of common stock;

(5) Any other provisions deemed proper and necessary to carry out the purposes for which the association was formed, including provisions, if deemed advisable, for the creation of a representative body or council, which, among other powers, may be granted power to hear and determine charges against any member of the board of directors, and power to remove any director where such charges are sustained. The vacancy which may thus be created shall be filled as in other cases. A representative body or council, if created, shall have, in addition to the powers provided by this chapter, such other powers as are provided by the bylaws, which by the bylaws may be made advisory only;

(6) The method or methods by which the bylaws may, from time to time, be adopted, altered, amended or repealed. The authority to make, alter, amend or repeal bylaws may be expressly vested by the bylaws in the board of directors or in a representative body or council, subject to the power of the representative body or council to change or repeal bylaws made by the board of directors, and subject to the power of the stockholders to change or repeal bylaws made by either the directors or the representative body or council. Notice of all amendments proposed by the stockholders, the representative body or council, or the directors shall be given either to the stockholders individually or by publication in such regularly published paper or periodical, if any, as shall be established by the association and distributed to stockholders.

(41 Del. Laws, c. 132, § 11; 3 Del. C. 1953, § 8510.)

§ 8511. Exclusive buy and sell requirements of bylaws; liquidated damages; enforcement.

The bylaws may require common stockholders to sell all or any part of their specifically enumerated agricultural or other similar products, and to buy all or any part of their specifically enumerated supplies, exclusively through the association, but, in such case, shall specify a reasonable period in each year during which such stockholders, by giving notice prescribed in the bylaws, may withdraw and be released from their obligation to employ the services of the association in respect to such products and supplies. The bylaws or contracts, or both, may fix, as liquidated damages, specific sums to be paid to the association to reimburse it for any damages which it, or the stockholders, sustain by the failure of any common stockholder or other patron to perform any obligation to the association under the articles of association, the bylaws, or any contract with the association, and such provision shall be valid and enforceable in the courts of this State. A court of equity may grant an injunction to prevent breach of the contract and may decree specific performance thereof.

(41 Del. Laws, c. 132, § 12; 3 Del. C. 1953, § 8511.)

§ 8512. Amendment of articles of association.

The articles of association may be amended pursuant to an affirmative vote of two-thirds of all the common stockholders or the members of a representative body or council in attendance at any regular meeting, or at a special meeting called for the purpose, due notice of the time, place and object of which regular or special meeting has been given as prescribed in the bylaws. A copy of such amendment, signed and acknowledged by not less than 3 of the directors, shall be presented to the Secretary of State, who shall examine the same, and, if he or she finds it in proper form, shall endorse approval thereon. The amendment shall then be filed in the office of the Secretary of State. A certified copy of the amendment, together with the endorsements thereon, shall then be recorded in the office of the recorder of deeds in the county where the principal place of business is situated.

(41 Del. Laws, c. 132, § 18; 3 Del. C. 1953, § 8512; 70 Del. Laws, c. 186, § 1.)

§ 8513. Dissolution of associations.

Any association may cease to do business and be dissolved in the same manner as corporations are dissolved under the general corporation laws of the State.

(41 Del. Laws, c. 132, § 19; 3 Del. C. 1953, § 8513.)

§ 8514. Sale of assets.

Any association organized, existing or registered as a cooperative agricultural association under this chapter may sell, lease or exchange all its property and assets, including its goodwill and its corporate franchises, upon such terms and conditions and for such consideration as its board of directors deems expedient and for the best interests of the corporation, when authorized by written consent of the holders of a majority of the stock issued and outstanding having voting power or by vote of said stockholders at a meeting duly called for that purpose. No such authorization by vote or written consent is required where its board of directors determines that the fair value of its

property and assets is less than the par value of its outstanding stock and its property and assets are sold to another association organized, existing or doing business as a cooperative agricultural association in this State and registered as provided under this chapter, in exchange for the obligation to purchase or redeem, at the par value, any of its stock offered for sale or redemption by its stockholders and the obligation to assume and pay all its debts.

(41 Del. Laws, c. 132, § 19; 48 Del. Laws, c. 98, § 1; 3 Del. C. 1953, § 8514.)

§ 8515. Registered office in State; principal office or place of business in State.

(a) Every association created under this chapter shall have and maintain in this State a registered office which may, but need not be, the same as its place of business.

(b) Whenever the term “principal place, where its business is to be transacted,” “principal place of business” or “principal office” is or has been used in the articles of association of a cooperative agricultural association, or in any other document, or in any statute, it shall be deemed to mean and refer to, unless the context indicates otherwise, the association’s registered office required under § 8503(a) (3) of this title; and it shall not be necessary for any association to amend its articles of association or any other documents to comply with this section.

(60 Del. Laws, c. 174, § 3.)

Subchapter II

Directors and Officers

§ 8521. Directors; duties; election; term; vacancies.

(a) The board of directors of each association shall consist of not less than 5 members. The board shall manage the affairs of the association and shall perform such other duties as are specifically imposed upon the board by this chapter.

(b) The bylaws of the association shall provide a method by which directors shall be nominated and elected, and may provide that the territory in which the association has stockholders shall be divided into districts, and may apportion the directors to be elected to the respective districts on the basis either of the number of stockholders or the quantity of the commodities produced for sale through the association in the respective districts. Meetings for the nomination and election of directors may be held by the stockholders either at the principal office of the corporation, or at district or local meetings of the stockholders held at the usual meeting places of local groups of stockholders that are organized for administrative purposes in the several communities, or by delegates or representatives chosen for that purpose by the stockholders in meetings assembled in the several local communities, as the bylaws may direct. Directors shall hold office until their successors enter upon the discharge of their duties. Vacancies shall be filled for the unexpired terms by the board of directors at any regular meeting, or at any special meeting called for that purpose.

(c) The board of directors shall be a continuing body, the term of one-third, or as near as may be, of whom shall expire each year, and the bylaws of the association shall so regulate the terms of directors, including the terms of additional directors that may be authorized from time to time, in order to make this principle effective.

(41 Del. Laws, c. 132, § 13; 3 Del. C. 1953, § 8521.)

§ 8522. Officers; appointment; terms; vacancies; bonds.

The officers of every association shall include a president, vice-president, secretary and treasurer, who shall be appointed annually by the board of directors. The president and vice-president shall be appointed from among the directors. The secretary and treasurer may be nonstockholders. The office of secretary and treasurer may be combined and one individual appointed thereto. Vacancies in offices shall be filled for the unexpired term by the board of directors in the manner provided for the original appointment of officers. Officers shall hold their offices until their successors are appointed and qualified and have entered upon the discharge of their duties. The board of directors shall require the treasurer, and may require such other officers, agents and employees charged by the association with responsibility for the custody of funds or property, to give bond, with sufficient surety, for the faithful performance of their duties as such. The premium on such bond shall be paid by the association.

(41 Del. Laws, c. 132, § 15; 3 Del. C. 1953, § 8522.)

§ 8523. Removal of directors and officers.

Any director of the association may, for cause, at any regular meeting, or any special meeting called for that purpose, be removed from office by the vote of not less than two-thirds of the stockholders present, or by the two-third vote of a representative body created and authorized by the bylaws to cause such removal. Any officer of the association may, for cause, at any regular meeting of the board of directors, or any special meeting of the board called for the purpose, be removed from office by the vote of not less than two-thirds of the directors present. Ten days written notice of the time and place and object of the meeting shall be given, in the manner prescribed in the bylaws, to the members of the body authorized to cause the removal, and to the directors or officers against whom charges are to be presented. Such directors or officers shall, at the same time, be informed of the nature of the charges to be preferred against them, and at such meeting shall have the opportunity to be heard in person or by counsel and by witnesses.

(41 Del. Laws, c. 132, § 14; 3 Del. C. 1953, § 8523.)

Subchapter III

Stock and Stockholders; Financial Operations

§ 8531. Issue, redemption and transfer of stock.

An association may transact or do business with or for patron stockholders or patrons not stockholders, and may issue and sell its preferred stock to patrons or nonpatrons of the associations, but common stock of the association shall be sold to patrons only. The certificate of common stock shall contain a provision that the association shall have an option to redeem the stock at par value plus declared and unpaid dividends when the owner thereof has for a period of 12 months done no business with the association, and shall contain a further provision that no sale or transfer of stock shall be valid without the written consent of the association, and, if the association withholds its consent to such sale or transfer, then the association shall redeem such stock at par value plus declared and unpaid dividends.

(41 Del. Laws, c. 132, § 6; 3 Del. C. 1953, § 8531.)

§ 8532. Dividends on stock.

Dividends on the common stock shall be paid only after dividends are paid on the preferred stock, and the required surplus fund set aside, and shall be not greater than 6 percent per annum, except as provided in this chapter. Dividends on preferred stock shall be not greater than 12 percent per annum and shall be cumulative.

(41 Del. Laws, c. 132, § 6; 3 Del. C. 1953, § 8532; 60 Del. Laws, c. 174, § 2.)

§ 8533. Liability of stockholders and officers for debts of association.

The officers and stockholders of an association, organized under and accepting this chapter, shall not be individually liable for the debts of the association otherwise than as provided in this chapter. Each common stockholder of an association shall be liable in the common stockholder's individual capacity to the amount of stock held by the common stockholder for all work and labor done to carry on the operations of the association. The terms "work" and "labor" as used in this section mean only such obligations incurred by the association for salary and wages for actual labor and services performed by individuals.

(41 Del. Laws, c. 132, §§ 8, 9; 3 Del. C. 1953, § 8533; 84 Del. Laws, c. 42, § 29.)

§ 8534. Voting rights of stockholders.

Every common stockholder shall be entitled to 1 vote only, and no vote by proxy shall be permitted. This restriction shall not affect any powers granted to the representative body or council, or the delegates thereto.

(41 Del. Laws, c. 132, § 7; 3 Del. C. 1953, § 8534.)

§ 8535. Patronage refunds.

After payment of the dividend on the preferred stock, and after making provision from its net earnings for the reserve fund, as provided in this chapter, the remainder of the net earnings of the association, not required for dividends on the common stock, may, in the discretion of the directors, be distributed as a patronage refund. Patron stockholders may be entitled to patronage refunds at double the rate of patronage refunds to which nonstockholder patrons shall be entitled. Patronage refunds may be credited to the accounts of nonstockholders in the purchase of capital stock of the association.

(41 Del. Laws, c. 132, § 6; 3 Del. C. 1953, § 8535.)

§ 8536. Reserve fund.

An association, after making provision for the payment of dividends on the preferred stock, and before payment of dividends on the common stock, or the distribution of any patronage refund or dividend shall set aside 10 percent of the total net earnings, annually, for a reserve fund, until the reserve fund equals at least 30 percent of the paid up capital stock. The reserve fund shall be available for such purposes as are designated and authorized by the vote of two-thirds of the members of the board of directors at a duly assembled meeting of the board, subject to the limitations and conditions provided for in the bylaws of the association.

(41 Del. Laws, c. 132, § 16; 3 Del. C. 1953, § 8536.)

§ 8537. Revolving reserve fund.

After payment of the dividend on preferred stock, and after making provision from its net earnings for the reserve fund, as provided in § 8536 of this title, the remainder of the net earnings of the association not required for dividends on the common stock and not distributable as a patronage refund may, at the discretion of the directors, be set up in a revolving reserve fund to be kept on the books of the association in the names of the patrons, according to the volume or value of their patronage. No stockholder or patron shall be entitled to payments from the revolving fund, except as provided by the board of directors, which shall have full and complete control of the expenditure and use of the funds therein, the provisions herein contained being merely authoritative and not mandatory.

(41 Del. Laws, c. 132, § 6; 3 Del. C. 1953, § 8537.)

§ 8538. Annual audit and report.

At the close of each fiscal year, a complete audit of the operations of the association shall be made by a qualified accountant employed by the board of directors. The written report of the accountant shall include statements of services rendered by the association, the balance

sheet, the receipts and disbursements, and the assets and liabilities, the total number of stockholders, and other proper information, and shall be submitted to the members at the next regular meeting. Within 3 months after the expiration of the fiscal year for which made, the secretary of the association shall file one copy of the report of the audit with the Secretary of the Department of Agriculture of this State and one copy with the Dean of the School of Agriculture of the University of Delaware. No person shall, without consent of the association, except in obedience to judicial process, make or permit any disclosure whereby any information contained in the report may be identified as having been furnished by the association.

(41 Del. Laws, c. 132, § 17; 3 Del. C. 1953, § 8538; 57 Del. Laws, c. 764, § 27.)

Subchapter IV

Marketing Contracts; Actions; Restraint of Trade and Monopoly

§ 8541. Purchases; sales; contracts with stockholders and patrons.

An association may engage in buying and selling agricultural products and supplies and take title thereto. An association may make and execute contracts with its stockholders and other patrons requiring them to sell all or any specified part of their agricultural products or specified commodities exclusively to or through the association or any facilities to be created by the association. An association shall be granted by any such contract the rights which its members individually have, arising out of the production, sale, handling or delivery of products or commodities covered by the contract. The contract shall specify a reasonable period in each year during which the association or any stockholder or patron so contracting with the association may terminate the contract. The association, as agent for a stockholder or other patron, may buy agricultural supplies for him or her and sell his or her agricultural or other kindred products.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8541; 70 Del. Laws, c. 186, § 1.)

§ 8542. Permissive provisions of marketing contracts.

Contracts with stockholders or other patrons may provide that the association may:

- (1) Blend proceeds of sales in one or more or all markets, and equalize returns among all stockholders and other patrons in such markets;
- (2) Establish pools and, in the case of milk, a base rating plan or any plan for production control;
- (3) Collect the proceeds of the sales of such products or commodities direct from the buyer thereof, and this authority shall be coupled with an interest in favor of the association and the other patrons which is irrevocable by the stockholder or patron as long as the contract is in effect;
- (4) Make, or permit the buyer to make, such deductions from the proceeds of the sales or products or commodities and the payment therefor to the association as are provided in the contract, and such authority shall be coupled with an interest in favor of the association and the other patrons which is irrevocable by the stockholder or patron as long as the contract is in effect.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8542.)

§ 8543. Title to products sold by stockholders and patrons to association.

If stockholders and patrons contract a sale to an association, it shall be conclusively held that title to the products passes absolutely and unreservedly to the association at the time of delivery out of the possession of the stockholder or patron, or at any other time, expressly and definitely agreed in the contract. The contract may provide that the association may sell or resell the products delivered by its stockholders and other patrons, with or without taking title thereto, and pay over to its stockholders and patrons the resale price, after deducting all necessary overhead and other costs and expenses, interest, dividends on the preferred and common stock, and other proper reserves.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8543.)

§ 8544. Suits by association against buyers; joinder of stockholder or patron.

(a) Where a contract provides that an association may collect the price of products or commodities sold through the association or facilities created by it, the association may maintain an action against any buyer of such products or commodities for the price, in its own name, without joining such stockholder or patron, with the same force and effect as if the association held title to the products or commodities and to the claim for the price thereof, and it shall not be a defense to any buyer to plead payment of the price to the stockholder or patron where the buyer has notice of the contract between the association and its stockholder or patron prior to the alleged payment.

(b) Where a contract provides that an association may make, or have the buyer make, a deduction from the proceeds of the sale of products or commodities sold through the association or facilities created by it, to be paid to the association, the association may maintain an action for the deduction, in its own name, without joining its stockholder or patron, with the same force and effect as if the association held title to the products or commodities and to the claim for the full price thereof, and it shall not be a defense to any buyer to plead payment of the price to the stockholder or patron where the buyer has notice of the contract between the association and its stockholder or patron prior to the alleged payment.

(c) Where a contract provides that an association may make, or have the buyer make, a deduction from the proceeds of the sale of products or commodities sold through the association or facilities created by it, to be paid to the association, the association shall have

the right to maintain an action for the deduction in its own name without joining its stockholder or patron, with the same force and effect as if the association held title to the products or commodities or to the claim for the full price of the products or commodities, or to a claim in the amount of such deduction, and it shall not be a defense to a buyer to plead payment of all of the price of the products or commodities, including the deduction authorized to be made, to the stockholder or patron where such buyer has notice of the contract between the association and its stockholder or patron prior to the payment, or to plead that the effect of the provisions of this chapter constitute a partial assignment of the claim of the stockholder or patron.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8544.)

§ 8545. Joinder of claims in suits by associations.

An association may join in a single suit any number of claims for the proceeds of products or commodities, or deductions therefrom, or any other claims arising from the sale, handling or delivery of such products or commodities, which its stockholders or patrons may have against any buyer, regardless of the fact that these claims may arise from the sale of products or commodities of different stockholders or patrons.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8545.)

§ 8546. Monopoly and restraint of trade.

An association organized under this chapter shall not be deemed to be a combination in restraint of trade, nor an illegal monopoly, nor an attempt to lessen competition or fix prices arbitrarily, or to create a combination or pool in violation of any law of this State, nor shall the marketing contracts between the association and its members, or any agreement authorized by this chapter, be so considered, nor shall the association be deemed to be a party to a combination in restraint of trade, or illegal monopoly, by reason of any agreement made with buyers of products or commodities sold to or through the association or facilities created by it, in accordance with this chapter.

(41 Del. Laws, c. 132, § 10; 3 Del. C. 1953, § 8546.)

Subchapter V

Violations and Penalties

(b) Producers of agricultural products or commodities shall have the right to form or become stockholders or patrons in cooperative agricultural associations organized or registered under this chapter, and no person shall directly or indirectly interfere with, restrain or coerce such producers in the exercise of this right.

(c) Buyers of agricultural products or commodities from producers or from such cooperative agricultural association, whose stockholders or patrons sell all or any part of their agricultural products or commodities to or through the association or facilities created by it shall not:

(1) Distribute or circulate any blacklist of stockholders or patrons of the cooperative agricultural association, or advise any person of the membership of any producer in such cooperative agricultural association, for the purpose of preventing the purchase or sale of or payment for agricultural products or commodities produced, sold or offered for sale by the producer so blacklisted or so named;

(2) Dominate or interfere with the formation, existence or administration of any cooperative agricultural association by any means, including but not limited to the following:

a. Participating or assisting in, supervising, controlling or dominating the initiation or creation of any cooperative agricultural association or its business (as distinguished from social or educational activities), meetings or elections, and no certificate of incorporation under this chapter shall issue to any persons or corporation so dominated, nor shall any rights under § 8562 of this title accrue to a corporation so dominated;

b. Making known to such producers the buyer's approval or disapproval of any cooperative agricultural association for the purpose of encouraging or discouraging membership or shareholding therein, becoming a patron, contracting or cooperating therewith;

(3) Encourage or discourage membership or shareholding in any cooperative agricultural association or becoming a patron, contracting or cooperating with the same.

(d) Nothing in this chapter shall preclude a buyer from making an agreement with a cooperative agricultural association (not established, administered or assisted by any action of the buyer) requiring membership or shareholding therein, becoming a patron, contracting or cooperating therewith as a condition of the purchase of a producer's agricultural products or commodities, if such cooperative agricultural association has as its stockholders or patrons a majority of the producers supplying such buyer with the agricultural commodity or products sold to such buyer.

(e) The word "buyer" as used in this section shall not include a buyer which is a cooperative agricultural association of producers.

(f) Nothing in this section shall prevent a cooperative agricultural association (not established, administered or assisted by any action of the buyer) or its officers or agents from bargaining with buyers or prospective buyers of their products with regard to prices therefor, and practices, terms, conditions, rules and regulations pertaining to the industry in which they are engaged.

(41 Del. Laws, c. 132, § 17; 3 Del. C. 1953, § 8551; 84 Del. Laws, c. 42, § 30.)

The association shall be entitled to an injunction against such violator to prevent continuation of such conduct.

§ 8720. Powers of Secretary; investigation; record keeping.

(1) To gather and compile information concerning and to investigate from time to time the organization, business, conduct, practices, and management of any person engaged in intrastate commerce and the relation thereof to other persons;

(2) To require, by general or special orders, persons engaged in intrastate commerce, or any class of them, or any of them, to file with the Secretary in such form as the Secretary may prescribe, annual or special, or both annual and special reports or answers in writing to specific questions, furnishing to the Secretary such information as the Secretary may require as to the organization, business, conduct, practices, management, and relation to other persons, of the person filing such reports or answers in writing. Such reports and answers shall be made under oath, or otherwise, as the Secretary may prescribe, and shall be filed with the Secretary within such reasonable period as the Secretary may prescribe, unless additional time be granted in any case by the Secretary.

(b) (1) For the purpose of this chapter the Secretary shall at all reasonable times have access to, for the purpose of examination, and the right to copy any documentary evidence of any person being investigated or proceeded against, and may require by subpoena the attendance and testimony of witnesses and the production of all documentary evidence of any person relating to any matter under investigation. The Secretary may sign subpoenas and may administer oaths and affirmations, examine witnesses, and receive evidence;

(2) Such attendance of witnesses, and the production of such documentary evidence, may be required at any designated place of hearing. In case of disobedience to the subpoena the Secretary may invoke the aid of any court designated in § 8718 of this title in requiring the attendance and testimony of witnesses and the production of documentary evidence;

(3) Any of the courts designated in § 8718 of this title within the jurisdiction of which such inquiry is carried on may, in case of contumacy or refusal to obey a subpoena issued to any person, issue an order requiring such person to appear before the Secretary or to produce documentary evidence if so ordered, or to give evidence touching the matter in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof;

(5) The Secretary may order testimony to be taken by deposition in any proceeding or investigation pending under this chapter at any stage of such proceeding or investigation. Any person may be compelled to appear and depose and to produce documentary evidence in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the Secretary as provided in this section;

(6) Witnesses summoned before the Secretary shall be paid the same fees and mileage that are paid witnesses in the courts of this State, and witnesses whose depositions are taken and the persons taking the same shall severally be entitled to the same fees as are paid for like services in such courts;

(c) (1) Any person who shall neglect or refuse to attend and testify or to answer any lawful inquiry, or to produce documentary evidence, if in his or her or its power to do so, in obedience to the subpoena or lawful requirement of the Secretary shall upon conviction thereof by a court of competent jurisdiction be punished by a fine of not less than \$1,000 nor more than \$5,000, or by imprisonment for not more than 1 year, or by both such fine and imprisonment;

(2) Any person who shall wilfully make or cause to be made any false entry or statement of fact in any report required to be made under this chapter, or that shall wilfully make, or cause to be made, any false entry in any account, record, or memorandum kept by any person subject to this chapter or that shall wilfully neglect or fail to make, or to cause to be made, full, true, and correct entries in such accounts, records, or memoranda, of all facts and transactions appertaining to the business of such person or that shall wilfully remove out of the jurisdiction of this State, or wilfully mutilate, alter, or by any other means falsify any documentary evidence of any person subject to this chapter or that shall wilfully refuse to submit to the Secretary or to any of the Secretary's his authorized agents, for the purpose of inspection and taking copies, any documentary evidence of any person subject to this chapter in his or her possession or within his or her control, shall be subject, upon conviction, to a fine of not less than \$1,000 nor more than \$5,000, or to imprisonment for a term of not more than 3 years, or to both such fine and imprisonment;

(3) If any person required by this chapter to file any annual or special report shall fail so to do within the time fixed by the Secretary for filing the same, and such failure shall continue for 30 days after notice of such default, such person shall forfeit to this State the sum of \$100 for each and every day of the continuance of such failure, which forfeiture shall be payable into the General Fund of this State, and shall be recoverable in a civil suit in the name of the State brought in the county where the person has his or her or its principal office or in any county in which he or she or it shall do business. It shall be the duty of the various Deputies Attorney General, under the direction of the Attorney General of this State, to prosecute for the recovery of such forfeitures. The costs and expenses of such prosecution shall be paid out of the appropriation for the expenses of the courts of this State;

(4) Any officer or employee of this State who shall make public any information obtained by the Secretary, without his authority, unless directed by a court, or use any such information to his own advantage, shall be punished by a fine not exceeding \$5,000, or by imprisonment, not exceeding 1 year, or by both such fine and imprisonment, in the discretion of the court;

(5) Superior Court shall have jurisdiction over the offenses in this section.

Part IX
Interstate Compacts
Chapter 90
Pest Control Compact
Subchapter I
General Provisions

§ 9001. Enactment; form.

The Pest Control Compact entered into with all other jurisdictions legally joining therein shall be in the form substantially as follows:

PEST CONTROL COMPACT

Article I Findings

The party states find that:

(a) In the absence of the higher degree of cooperation among them possible under this compact, the annual loss of approximately seven billion dollars from the depredations of pests is virtually certain to continue, if not to increase.

(b) Because of varying climatic, geographic and economic factors, each state may be affected differently by particular species of pests; but all states share the inability to protect themselves fully against those pests which present serious dangers to them.

(c) The migratory character of pest infestations makes it necessary for states both adjacent to and distant from one another to complement each other's activities when faced with conditions of infestation and reinfestation.

(d) While every state is seriously affected by a substantial number of pests, and every state is susceptible of infestation by many species of pests not now causing damage to its crop and plant life and products, the fact that relatively few species of pests present equal danger to or are of interest to all states makes the establishment and operation of an Insurance Fund, from which individual states may obtain financial support for pest control programs of benefit to them in other states and to which they may contribute in accordance with their relative interests, the most equitable means of financing cooperative pest eradication and control programs.

Article II Definitions

As used in this compact, unless the context clearly requires a different construction:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico;

(b) "Requesting state" means a state which invokes the procedures of the compact to secure the undertaking or intensification of measures to control or eradicate one or more pests within one or more other states;

(c) "Responding state" means a state requested to undertake or intensify the measures referred to in subdivision (b) of this article;

(d) "Pest" means any invertebrate animal, pathogen, parasitic plant or similar or allied organism which can cause disease or damage in any crops, trees, shrubs, grasses or other plants of substantial value;

(e) "Insurance Fund" means the Pest Control Insurance Fund established pursuant to this compact;

(f) "Governing Board" means the administrators of this compact representing all of the party states when such administrators are acting as a body in pursuance of authority vested in them by this compact;

(g) "Executive Committee" means the Committee established pursuant to Article V(e) of this compact.

Article III The Insurance Fund

There is established the Pest Control Insurance Fund for the purpose of financing other than normal pest control operations which states may be called upon to engage in pursuant to this compact. The Insurance Fund shall contain moneys appropriated to it by the party states and any donations and grants accepted by it. All appropriations, except as conditioned by the rights and obligations of party states expressly set forth in this compact, shall be unconditional and may not be restricted by the appropriating state to use in the control of any specified pest or pests. Donations and grants may be conditional or unconditional, provided that the Insurance Fund shall not accept any donation or grant whose terms are inconsistent with any provision of this compact.

Article IV The Insurance Fund, Internal Operations and Management

(a) The Insurance Fund shall be administered by a Governing Board and Executive Committee as hereinafter provided. The actions of the Governing Board and Executive Committee pursuant to this compact shall be deemed the actions of the Insurance Fund.

(b) The members of the Governing Board shall be entitled to one vote each on such Board. No action of the Governing Board shall be binding unless taken at a meeting at which a majority of the total number of votes on the Governing Board are cast in favor thereof. Action of the Governing Board shall be only at a meeting at which a majority of the members are present.

(c) The Insurance Fund shall have a seal which may be employed as an official symbol and which may be affixed to documents and otherwise used as the Governing Board may provide.

(d) The Governing Board shall elect annually, from among its members, a chairman, a vice chairman, a secretary and a treasurer. The chairman may not serve a consecutive term. The Governing Board may appoint an executive director and fix the executive director's duties and the executive director's compensation, if any. Such executive director shall serve at the pleasure of the Governing Board. The Governing Board shall make provision for the bonding of such of the officers and employees of the Insurance Fund as may be appropriate.

(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director, or if there be no executive director, the chairman, in accordance with such procedures as the bylaws may provide, shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Insurance Fund and shall fix the duties and compensation of such personnel. The Governing Board in its bylaws shall provide for the personnel policies and programs of the Insurance Fund.

(f) The Insurance Fund may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental agency, or from any person, firm, association or corporation.

(g) The Insurance Fund may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association or corporation, and may receive, utilize and dispose of the same. Any donation, gift or grant accepted by the Governing Board pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the Insurance Fund. Such report shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender.

(h) The Governing Board shall adopt bylaws for the conduct of the business of the Insurance Fund and shall have the power to amend and rescind these bylaws. The Insurance Fund shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states.

(i) The Insurance Fund annually shall make to the Governor and General Assembly of each party state a report covering its activities for the preceding year. The Insurance Fund may make such additional reports as it may deem desirable.

(j) In addition to the powers and duties specifically authorized and imposed, the Insurance Fund may do such other things as are necessary and incidental to the conduct of its affairs pursuant to this compact.

Article V Compact and Insurance Fund Administration

(a) In each party state there shall be a compact administrator, who shall be selected and serve in such manner as the laws of such compact administrator's state may provide, and who shall:

- (1) Assist in the coordination of activities pursuant to the compact in such compact administrator's state; and
- (2) Represent such compact administrator's state on the Governing Board of the Insurance Fund.

(b) If the laws of the United States specifically so provide, or if administrative provision is made therefor with the federal government, the United States may be represented on the Governing Board of the Insurance Fund by not to exceed 3 representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, but no such representative shall have a vote on the Governing Board or on the Executive Committee thereof.

(c) The Governing Board shall meet at least once each year for the purpose of determining policies and procedures in the administration of the Insurance Fund and, consistent with the provisions of this compact, supervising and giving direction to the expenditure of moneys from the Insurance Fund. Additional meetings of the Governing Board shall be held on call of the chairman, the Executive Committee, or a majority of the membership of the Governing Board.

(d) At such times as it may be meeting, the Governing Board shall pass upon applications for assistance from the Insurance Fund and authorize disbursements therefrom. When the Governing Board is not in session, the Executive Committee thereof shall act as agent of the Governing Board, with full authority to act for it in passing upon such applications.

(e) The Executive Committee shall be composed of the chairman of the Governing Board and 4 additional members of the Governing Board chosen by it so that there shall be one member representing each of 4 geographic groupings of party states. The Governing Board shall make such geographic groupings. If there is representation of the United States on the Governing Board, one such representative may meet with the Executive Committee. The chairman of the Governing Board shall be chairman of the Executive Committee. No action of the Executive Committee shall be binding unless taken at a meeting at which at least 4 members of such Committee are present and vote in favor thereof. Necessary expenses of each of the 5 members of the Executive Committee incurred in attending meetings of such Committee, when not held at the same time and place as a meeting of the Governing Board, shall be charged against the Insurance Fund.

Article VI Assistance and Reimbursement

(a) Each party state pledges to each other party state that it will employ its best efforts to eradicate, or control within the strictest practicable limits, any and all pests. It is recognized that performance of this responsibility involves:

- (1) The maintenance of pest control and eradication activities of interstate significance by a party state at a level that would be reasonable for its own protection in the absence of this compact.
- (2) The meeting of emergency outbreaks or infestations of interstate significance to no less an extent than would have been done in the absence of this compact.

(b) Whenever a party state is threatened by a pest not present within its borders but present within another party state, or whenever a party state is undertaking or engaged in activities for the control or eradication of a pest or pests, and finds that such activities are or would be impracticable or substantially more difficult of success by reason of failure of another party state to cope with infestation or threatened infestation, that state may request the Governing Board to authorize expenditures from the Insurance Fund for eradication or control measures to be taken by one or more of such other party states at a level sufficient to prevent, or to reduce to the greatest practicable extent, infestation or reinfestation of the requesting state. Upon such authorization the responding state or states shall take or increase

such eradication or control measures as may be warranted. A responding state shall use moneys made available from the Insurance Fund expeditiously and efficiently to assist in affording the protection requested.

(c) In order to apply for expenditures from the Insurance Fund, a requesting state shall submit the following in writing:

(1) A detailed statement of the circumstances which occasion the request for the invoking of this compact.

(2) Evidence that the pest on account of whose eradication or control assistance is requested constitutes a danger to an agricultural or forest crop, product, tree, shrub, grass or other plant having a substantial value to the requesting state.

(3) A statement of the extent of the present and projected program of the requesting state and its subdivisions, including full information as to the legal authority for the conduct of such program or programs and the expenditures being made or budgeted therefor, in connection with the eradication, control, or prevention of introduction of the pest concerned.

(4) Proof that the expenditures being made or budgeted as detailed in item 3 do not constitute a reduction of the effort for the control or eradication of the pest concerned or, if there is a reduction, the reasons why the level of program detailed in item 3 constitutes a normal level of pest control activity.

(5) A declaration as to whether, to the best of its knowledge and belief, the conditions which in its view occasion the invoking of the compact in the particular instance can be abated by a program undertaken with the aid of moneys from the Insurance Fund in one year or less, or whether the request is for an installment in a program which is likely to continue for a longer period of time.

(6) Such other information as the Governing Board may require consistent with the provisions of this compact.

(d) The Governing Board or Executive Committee shall give due notice of any meeting at which an application for assistance from the Insurance Fund is to be considered. Such notice shall be given to the compact administrator of each party state and to such other officers and agencies as may be designated by the laws of the party states. The requesting state and any other party state shall be entitled to be represented and present evidence and argument at such meeting.

(e) Upon the submission as required by paragraph (c) of this article and such other information as it may have or acquire, and upon determining that an expenditure of funds is within the purposes of this compact and justified thereby, the Governing Board or Executive Committee shall authorize support of the program. The Governing Board or the Executive Committee may meet at any time or place for the purpose of receiving and considering an application. Any and all determinations of the Governing Board or Executive Committee, with respect to an application, together with the reasons therefor shall be recorded and subscribed in such manner as to show and preserve the votes of the individual members thereof.

(f) A requesting state which is dissatisfied with a determination of the Executive Committee shall, upon notice in writing given within 20 days of the determination with which it is dissatisfied, be entitled to receive a review thereof at the next meeting of the Governing Board. Determinations of the Executive Committee shall be reviewable only by the Governing Board at one of its regular meetings, or at a special meeting held in such manner as the Governing Board may authorize.

(g) Responding states required to undertake or increase measures pursuant to this compact may receive moneys from the Insurance Fund, either at the time or times when such state incurs expenditures on account of such measures, or as reimbursement for expenses incurred and chargeable to the Insurance Fund. The Governing Board shall adopt and, from time to time, may amend or revise procedures for submission of claims upon it and for payment thereof.

(h) Before authorizing the expenditure of moneys from the Insurance Fund pursuant to an application of a requesting state, the Insurance Fund shall ascertain the extent and nature of any timely assistance or participation which may be available from the federal government and shall request the appropriate agency or agencies of the federal government for such assistance and participation.

(i) The Insurance Fund may negotiate and execute a memorandum of understanding or other appropriate instrument defining the extent and degree of assistance or participation between and among the Insurance Fund, cooperating federal agencies, states and any other entities concerned.

Article VII Advisory and Technical Committees

The Governing Board may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any such advisory or technical committee, or any member or members thereof may meet with and participate in its deliberations. Upon request of the Governing Board or Executive Committee an advisory or technical committee may furnish information and recommendations with respect to any application for assistance from the Insurance Fund being considered by such Board or Committee and the Board or Committee may receive and consider the same: provided that any participant in a meeting of the Governing Board or Executive Committee held pursuant to Article VI(d) of this compact shall be entitled to know the substance of any such information and recommendations, at the time of the meeting if made prior thereto or as a part thereof or, if made thereafter, no later than the time at which the Governing Board or Executive Committee makes its disposition of the application.

Article VIII Relations with Nonparty Jurisdictions

(a) A party state may make application for assistance from the Insurance Fund in respect of a pest in a nonparty state. Such application shall be considered and disposed of by the Governing Board or Executive Committee in the same manner as an application with respect to a pest within a party state, except as provided in this article.

(b) At or in connection with any meeting of the Governing Board or Executive Committee held pursuant to Article VI(d) of this compact a nonparty state shall be entitled to appear, participate, and receive information only to such extent as the Governing Board or Executive Committee may provide. A nonparty state shall not be entitled to review of any determination made by the Executive Committee.

(c) The Governing Board or Executive Committee shall authorize expenditures from the Insurance Fund to be made in a nonparty state only after determining that the conditions in such state and the value of such expenditures to the party states as a whole justify them. The Governing Board or Executive Committee may set any conditions which it deems appropriate with respect to the expenditure of moneys from the Insurance Fund in a nonparty state and may enter into such agreement or agreements with nonparty states and other jurisdictions or entities as it may deem necessary or appropriate to protect the interests of the Insurance Fund with respect to expenditures and activities outside of party states.

Article IX Finance

(a) The Insurance Fund shall submit to the executive head or designated officer or officers of each party state a budget for the Insurance Fund for such period as may be required by the laws of that party state for presentation to the General Assembly thereof.

(b) Each of the budgets shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The requests for appropriations shall be apportioned among the party states as follows: One-tenth of the total budget in equal shares and the remainder in proportion to the value of agricultural and forest crops and products, excluding animals and animal products, produced in each party state. In determining the value of such crops and products the Insurance Fund may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the budgets and requests for appropriations shall indicate the source or sources used in obtaining information concerning value of products.

(c) The financial assets of the Insurance Fund shall be maintained in two accounts to be designated respectively as the "Operating Account" and the "Claims Account." The Operating Account shall consist only of those assets necessary for the administration of the Insurance Fund during the next ensuing two-year period. The Claims Account shall contain all moneys not included in the Operating Account and shall not exceed the amount reasonably estimated to be sufficient to pay all legitimate claims on the Insurance Fund for a period of 3 years. At any time when the Claims Account has reached its maximum limit or would reach its maximum limit by the addition of moneys requested for appropriation by the party states, the Governing Board shall reduce its budget requests on a pro rata basis in such manner as to keep the Claims Account within such maximum limit. Any moneys in the Claims Account by virtue of conditional donations, grants or gifts shall be included in calculations made pursuant to this paragraph only to the extent that such moneys are available to meet demands arising out of claims.

(d) The Insurance Fund shall not pledge the credit of any party state. The Insurance Fund may meet any of its obligations in whole or in part with moneys available to it under Article IV(g) of this compact, provided that the Governing Board takes specific action setting aside such moneys prior to incurring any obligation to be met in whole or in part in such manner. Except where the Insurance Fund makes use of moneys available to it under Article IV(g) of this compact, the Insurance Fund shall not incur any obligation prior to the allotment of moneys by the party states adequate to meet the same.

(e) The Insurance Fund shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Insurance Fund shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Insurance Fund shall be audited yearly by a certified or licensed public accountant and a report of the audit shall be included in and become part of the annual report of the Insurance Fund.

(f) The accounts of the Insurance Fund shall be open at any reasonable time for inspection by duly authorized officers of the party states and by any persons authorized by the Insurance Fund.

Article X Entry Into Force and Withdrawal

(a) This compact shall enter into force when enacted into law by any 5 or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 2 years after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article XI Construction and Severability

This compact shall be liberally construed so as to effectuate its purposes. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, it shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

Middle Atlantic Interstate Forest Fire Protection Compact

§ 9101. Approval of compact; text.

The Governor of Delaware may execute a compact on behalf of the State with any 1 or more of the States of Maryland, New Jersey, Ohio, Pennsylvania, Virginia and West Virginia, who may, by their legislative bodies, authorize a compact, in form substantially as follows:

Middle Atlantic Interstate Forest Fire Protection Compact

Article I.

The purpose of this compact is to promote effective prevention and control of forest fires in the Middle Atlantic region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member States, and by providing for mutual aid in fighting forest fires among the compacting States of the region and with States which are party to other regional forest fire protection compacts or agreements.

Article II

This compact shall become operative immediately as to those States ratifying it whenever any two or more of the States of Delaware, Maryland, New Jersey, Ohio, Pennsylvania, Virginia and West Virginia that are contiguous have ratified it and Congress has given consent thereto.

Article III

In each State the State forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that State and shall consult with like officials of the other member States and shall implement cooperation between such States in forest fire prevention and control. The compact administrators of the member States shall organize to coordinate the services of the member States and provide administrative integration in carrying out the purposes of this compact. The compact administrators shall formulate and, in accordance with need, from time to time revise a regional forest fire plan for the member States. It shall be the duty of each member State to formulate and put in effect a forest fire plan for that State and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

Article IV

Whenever the State forest fire control agency of a member State requests aid from the State forest fire control agency of any other member State in combating, controlling or preventing forest fires, it shall be the duty of the State forest fire control agency of that State to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

Article V

Whenever the forces of any member State are rendering outside aid pursuant to the request of another member State under this compact, the employees of such State shall, under the direction of the officers of the State to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the State to which they are rendering aid. No member State or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. All liability, except as otherwise provided hereinafter, that may arise either under the laws of the requesting State or under the laws of the aiding State or under the laws of a third State on account of or in connection with a request for aid shall be assumed and borne by the requesting State. Any member State rendering outside aid pursuant to this compact shall be reimbursed by the member State receiving such aid for any loss or damage to or expense incurred in the operation of any equipment answering a request for aid and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with such request: Provided, That nothing herein contained shall prevent any assisting member state from assuming such loss, damage, expense or other cost, or from loaning such equipment, or from donating such services to the receiving member state without charge or cost. Each member State shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State. For the purposes of this compact, the term employee shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding State under the laws thereof. The compact administrators shall formulate procedure for claims and reimbursement under the provisions of this article in accordance with the laws of the member States.

Article VI

Nothing in this compact shall be construed to authorize or permit any member State to curtail or diminish its forest fire fighting forces, equipment, services or facilities, and it shall be the duty and responsibility of each member state to maintain adequate forest fire fighting forces and equipment to meet demands for forest fire protection within its borders in the same manner and to the same extent as if this compact were not operative. Nothing in this compact shall be construed to limit or restrict the powers of any State ratifying the same

to provide for the prevention, control and extinguishment of forest fires or to prohibit the enactment or enforcement of State laws, rules or regulations intended to aid in such prevention, control and extinguishment in such State. Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between the United States Forest Service and a member State or States.

Article VII

The compact administrators may request the United States Forest Service to act as the primary research and coordinating agency of the Middle Atlantic Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each State, and the United States Forest Service may accept the initial responsibility in preparing and presenting to the compact administrators its recommendations with respect to the regional fire plan. Representatives of the United States Forest Service may attend meetings of the compact administrators.

Article VIII

The provisions of Articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any State party to this compact and any other State which is party to a regional forest fire protection compact in another region: Provided, That the Legislature of such other State shall have given its assent to such mutual aid provisions of this compact.

Article IX

This compact shall continue in force and remain binding on each State ratifying it until the legislature or the Governor of such State takes action to withdraw therefrom. Such action shall not be effective until six months after notice thereof has been sent by the chief executive of the State desiring to withdraw to the chief executives of all States then parties to the compact.

(72 Del. Laws, c. 235, § 4.)

§ 9102. Effective date of compact.

The above compact shall be effective immediately as between the State and such other state or states as have already approved the compact. As to other states it shall become effective when approved by them. The Governor may take such action as may be necessary to complete the exchange of official documents between this State and any other state authorizing the compact.

(72 Del. Laws, c. 235, § 4.)

§ 9103. Compact administrator.

(a) The application for a license to conduct a harness horse race meet shall be filed with the Commission on or before the 31st day of December of the year preceding that for which the license is requested but the Commission may, for a good cause, permit an application to be filed at a later date. The application shall specify the days on which harness horse racing is desired to be conducted and shall be in such form and supply such data and information, including a blueprint of the track and specifications of its surface and blueprints and specifications of buildings and grandstand on the land where the meet is to be conducted as the Commission prescribes, provided, however, that it shall not be necessary for the applicant to submit blueprints and specifications with the application if the race meet for which a license is requested is to be conducted at a track for which the Commission granted a license for the preceding year.

§ 10025. Issuance.

Upon the award of days to any applicant, the Commission shall issue a license for the holding of the meet or meets during the days awarded to the applicant. The license shall be subject to all rights, regulations and conditions from time to time prescribed by the Commission.

(45 Del. Laws, c. 303, § 9; 28 Del. C. 1953, § 524; 66 Del. Laws, c. 303, § 261(a).)

§ 10026. Suspension or revocation; appeal.

Any license issued by the Commission shall be subject to suspension or revocation by the Commission for any cause whatsoever which the Commission deems sufficient. If any license is suspended or revoked, the Commission shall state publicly its reasons for so doing and cause an entry of the reasons to be made on the minute book of the Commission and its action shall be final. The propriety of such action shall be subject to review, upon questions of law only, by the Superior Court of the county within which the license was granted. The action of the Commission shall stand unless and until reversed by the Court.

(45 Del. Laws, c. 303, § 9; 28 Del. C. 1953, § 525; 66 Del. Laws, c. 303, § 261(a).)

§ 10027. Rules of United States Trotting Association.

Every license issued under this chapter shall contain a condition that all harness races or racing meets conducted thereunder shall be subject to the reasonable rules and regulations from time to time prescribed by the United States Trotting Association. Any rule or

regulation of the United States Trotting Association may be modified or abrogated by the Commission upon giving the United States Trotting Association an opportunity to be heard. All grooms, drivers and owners and their employees of any horses entered, or to be entered, in any harness racing meet licensed under this chapter shall be subject to said rules and regulations prescribed as aforesaid by the said United States Trotting Association. Said rules of the United States Trotting Association may be modified or abrogated by the Commission upon giving the United States Trotting Association an opportunity to be heard.

(45 Del. Laws, c. 303, § 10; 28 Del. C. 1953, § 526; 52 Del. Laws, c. 233, § 2; 66 Del. Laws, c. 303, § 261(a).)

§ 10028. Inspection of racing premises prior to meet.

Not less than 5 days prior to the opening of any meet authorized by the Commission, the Commission, at the expense of the licensee for the meet, shall cause to be made an inspection of the track, grandstand and buildings where the meet is to be held and unless the track, grandstand and buildings where the meet is to be held are found to be safe for animals and persons, or are rendered safe prior to the opening of the meet, the license for the meet shall be withdrawn.

(45 Del. Laws, c. 303, § 7; 47 Del. Laws, c. 23, § 1; 28 Del. C. 1953, § 527; 66 Del. Laws, c. 303, § 261(a).)

§ 10029. Rules, regulations and special powers of Commission.

(a) The Commission may make rules governing, restricting or regulating the rate or charge by a licensee for admission, or for the performance of any service, or the sale of any article on the premises of a licensee; provided, however, that where the Commission imposes a penalty on any person, such penalty shall not apply to that person's spouse unless such spouse has committed the same offense.

(b) All proposed extensions, additions or improvements to the buildings, stables or improvements on tracks or property owned or leased by a licensee under this chapter shall be subject to the approval of the Commission.

(c) The Commission may compel the production of any and all books, memoranda or documents showing the receipts and disbursements of any person licensed under the provisions of this chapter to conduct racing meets.

(d) The Commission may at any time require the removal of any employee or official employed by any licensee hereunder.

(e) The Commission may require that the books, records and financial or other statements of any person licensed under the provisions of this chapter shall be kept in such form or in such manner as the Commission prescribes. The Commission may visit, investigate and place expert accountants and such other persons as it deems necessary, in the offices, tracks or places of business of any such person for the purpose of satisfying itself that the Commission's rules and regulations are strictly complied with. The salaries and expenses of such expert accountants or other persons shall be paid by the person to whom they are assigned.

(f) The Commission may issue, under the hand of any Commissioner and the seal of the Commission, subpoenas for the attendance of witnesses and the production of books, papers and documents before the Commission and may administer oaths or affirmations to the witnesses whenever in the judgment of the Commission it is necessary for the effectual discharge of its duties. If any person refuses to obey any subpoena, or to testify, or to produce any books, papers or documents, then the Commission may apply to the Superior Court of the county in which the Commission is sitting, and, thereupon, the Court shall issue its subpoena requiring the person to appear and to testify, or to produce the books, papers and documents. Whoever fails to obey or refuses to obey a subpoena of the Court shall be guilty of contempt of court and shall be punished accordingly. False swearing on the part of any witness shall be deemed perjury and shall be punished as such.

(g) The Commission shall promulgate administrative regulations for effectively preventing the use of improper devices, the administration of drugs or stimulants or other improper acts for the purpose of affecting the speed or health of horses in races in which they are to participate. The Commission is also authorized to promulgate administrative regulations for the legal drug testing of licensees. The Commission is authorized to contract for the maintenance and operation of a testing laboratory and related facilities, for the purpose of saliva, urine or other tests for enforcement of the Commission's drug testing rules and regulations. The licensed persons or associations conducting harness racing shall reimburse the Commission for all costs of the drug testing program established pursuant to this section. Increases in costs of the aforementioned testing program shall be reasonable and related to expansion in the number of days of racing and the number of races held, the need to maintain competitive salaries, and inflation. The Commission may not unreasonably expand the drug testing program beyond the scope of the program in effect as of June 30, 1998. Any decision by the Commission to expand the scope of the drug testing program that occurs after an administrative hearing, at which the persons or associations licensed under § 10022 of this title consent to such expansion, shall not be deemed an unreasonable expansion for purposes of this section. The Commission, in addition to the penalties contained in § 10026 of this title, may impose penalties on licensees who violate the drug testing regulations including imposition of fines or assessments for drug testing costs. By January 1, 1999, the Commission shall present recommendations to the General Assembly regarding the implementation of additional penalties, including forfeiture of horses, which may be imposed on a licensee whose horse tests positive for illegal drugs.

§ 10030. Licensee's annual financial statement.

Every licensee shall file with the Department of Finance not later than 4 months after the close of its fiscal year a statement, duly certified by an independent public accountant, of its receipts from all sources whatsoever during the fiscal year and of all expenses and

disbursements, itemized in the manner and form directed by the Department of Finance, showing the net revenue from all sources derived by the licensee during the fiscal year covered by such statement.

§ 10031. [Reserved.]

§ 10032. Delaware-owned or bred races.

(a) Persons licensed to conduct harness horse racing meets under this chapter may offer non-stakes races limited to horses wholly owned by Delaware residents or sired by Delaware stallions.

(b) For purposes of this section, a Delaware bred horse shall be defined as one sired by a Delaware stallion who stood in Delaware during the entire breeding season in which it sired a Delaware bred horse or a horse whose dam was a wholly-owned Delaware mare at the time of breeding as shown on the horse's United States Trotting Association registration or eligibility papers. The breeding season means that period of time beginning February 1 and ending August 1 of each year.

(c) All horses to be entered in Delaware-owned or bred races must first be registered and approved by the Commission or its designee. The Commission may establish a date upon which a horse must be wholly-owned by a Delaware resident(s) to be eligible to be nominated, entered or raced as Delaware-owned. In the case of a corporation seeking to enter a horse in a Delaware-owned or bred event as a Delaware-owned entry, all owners, officers, shareholders and directors must meet the requirements for a Delaware resident specified below. In the case of an association or other entity seeking to enter a horse in a Delaware-owned or bred event as a Delaware-owned entry, all owners must meet the requirements for a Delaware resident specified below. Leased horses are ineligible as Delaware-owned entries unless both the lessor and the lessee are Delaware residents as set forth in this section.

(d) The following actions shall be prohibited for Delaware-owned races and such horses shall be deemed ineligible to be nominated, entered or raced as Delaware-owned horses.

- (1) Payment of the purchase price over time beyond the date of registration;
- (2) Payment of the purchase price through earnings beyond the date of registration;
- (3) Payment of the purchase price with a loan, other than from a commercial lender regulated in Delaware and balance due beyond the date of registration;
- (4) Any management fees, agent fees, consulting fees or any other form of compensation to nonresidents of Delaware, except industry standard training and driving fees; or
- (5) Leasing a horse to a nonresident of Delaware.

(e) The Commission or its designee shall determine all questions about a person's eligibility to participate in Delaware-owned races. In determining whether a person is a Delaware resident, the term "resident" shall mean the place where an individual has his or her permanent home, at which that person remains when not called elsewhere for labor or other special or temporary purposes, and to which that person returns in seasons of repose. For purposes of this section, the term "residence" shall mean a place a person voluntarily fixed as a permanent habitation with an intent to remain in such place for the indefinite future.

(f) The Commission or its designee may review and subpoena any information which is deemed relevant to determine a person's residence, including, but not limited to, the following:

- (1) Where the person lives and has been living;
- (2) The location of the person's source(s) of income;
- (3) The address used by the person for the payment of taxes, including federal, state and property taxes;
- (4) The state in which the person's personal automobiles are registered;
- (5) The state issuing the person's driver's license;
- (6) The state in which the person is registered to vote;
- (7) Ownership of property in Delaware or outside of Delaware;
- (8) The residence used for U.S.T.A. membership and U.S.T.A. registration of a horse, whichever is applicable;
- (9) The residence claimed by a person on a loan application or other similar document;
- (10) Membership in civic, community and other organizations in Delaware and elsewhere.

None of these factors when considered alone shall be dispositive, except that a person must have resided in the State of Delaware in the preceding calendar year for a minimum of 183 days. Consideration of all of these factors together, as well as a person's expressed intention, shall be considered in arriving at a determination. The burden shall be on the applicant to prove Delaware residency and eligibility for Delaware-owned or bred races. The Commission may promulgate by regulation any other relevant requirements necessary to ensure that the licensee is a Delaware resident. In the event of disputes about a person's eligibility to enter a Delaware-owned or bred race, the Commission shall resolve all disputes and that decision shall be final.

(g) Each owner and trainer, or the authorized agent of an owner or trainer, or the nominator (collectively, the "entrant"), is required to disclose the true and entire ownership of each horse with the Commission or its designee, and to disclose any changes in the owners of the

registered horse to the Commission or its designee. All licensees and racing officials shall immediately report any questions concerning the ownership status of a horse to the Commission racing officials, and the Commission racing officials may place such a horse on the steward's or judge's list. A horse placed on the steward's or judge's list shall be ineligible to start in a race until questions concerning the ownership status of the horse are answered to the satisfaction of the Commission or the Commission's designee, and the horse is removed from the steward or judge's list.

(h) If the Commission, or the Commission's designee, finds a lack of sufficient evidence of ownership status, residency or other information required for eligibility, prior to a race, the Commission or the Commission's designee may order the entrant's horse scratched from the race or ineligible to participate.

(i) After a race, the Commission or the Commission's designee may, upon reasonable suspicion, withhold purse money pending an inquiry into ownership status, residency or other information required to determine eligibility. If the purse money is ultimately forfeited because of a ruling by the Commission or the Commission's designee, the purse money shall be redistributed per order of the Commission or the Commission's designee.

(j) If purse money has been paid prior to reasonable suspicion, the Commission or the Commission's designee may conduct an inquiry and make a determination as to eligibility. If the Commission or the Commission's designee determines there has been a violation of ownership status, residency or other information required for eligibility, it shall order the purse money returned and redistributed per order of the Commission or the Commission's designee.

(k) Anyone who willfully provides incorrect or untruthful information to the Commission or its designee pertaining to the ownership or breeding of a Delaware-owned or bred horse or pertaining to the declaration of a horse in a race restricted to Delaware-owned or bred horses or who commits any other fraudulent act in connection with the entry or registration of a Delaware-owned or bred horse, in addition to other penalties imposed by law, shall be subject to mandatory revocation of licensing privileges in the State of Delaware for a period to be determined by the Commission in its discretion except that absent extraordinary circumstances, the Commission shall impose a minimum revocation period of 2 years and a minimum fine of \$5,000 from the date of the violation of these rules or the decision of the Commission, whichever occurs later.

(l) Any person whose license is suspended or revoked under subsection (k) of this section shall be required to apply for reinstatement of licensure and the burden shall be on the applicant to demonstrate that his or her licensure will not reflect adversely on the honesty and integrity of harness racing or interfere with the orderly conduct of a race meeting. Any person whose license is reinstated under this subsection shall be subject to a 2-year probationary period, and may not participate in any Delaware-owned or bred race during this probationary period. Any further violations of this section by the licensee during the period of probationary licensure shall, absent extraordinary circumstances, result in the Commission imposing revocation of all licensure privileges for a 5-year period along with any other penalty the Commission deems reasonable and just.

(m) Any suspension imposed by the Commission under this subsection shall not be subject to the stay provisions of § 10144 of Title 29. (71 Del. Laws, c. 417, § 1.)

Racing under this chapter shall be limited to harness horse racing or harness horse races. No part of this chapter shall be construed to apply to the racing of horses on the flat or running races; provided, however, that simulcasts of the racing of horses on the flat or running races or harness horse races which are displayed within the enclosure of any harness horse race meeting shall constitute harness horse racing within said enclosure.

No salary, fee or compensation exceeding the sum of \$2,000 shall be paid in any calendar year by any person licensed under this chapter, except to officials or employees actively engaged in the operations incident to the holding of the harness racing meet or in the maintenance of the racing plant.

(45 Del. Laws, c. 303, § 10; 28 Del. C. 1953, § 543; 66 Del. Laws, c. 303, § 261(a).)

§ 10045. Enforcement.

§ 10046. Aiding or abetting in unlicensed meet; penalty.

Whoever aids or abets in the conduct of any meet within this State at which harness horse racing or harness races are permitted for any stake, purse or reward and upon which wagering or betting is conducted as provided in this chapter, except in accordance with a license duly issued and unsuspended or unrevoked by the Commission, shall be fined not less than \$575 and not more than \$11,500 for each day of such unauthorized meeting, or imprisoned.

(45 Del. Laws, c. 303, § 13; 28 Del. C. 1953, § 545; 66 Del. Laws, c. 303, § 261(a); 68 Del. Laws, c. 9, § 69.)

(a) Whoever, being a licensee, fails or refuses to pay the amount found to be due by the Department of Finance as the tax on admissions shall be fined not more than \$28,750 in addition to the amount due the Department of Finance.

(b) All fines up to the amount found to be due the Department of Finance and paid into court by a licensee found guilty of violating this section shall be transmitted and paid over by the clerk of the court to the Department of Finance.

§ 10048. Restrictions on licensee acting as video lottery agent.

During any calendar year in which a licensee under this chapter has also been licensed by the Director of the State Lottery Office to maintain video lottery machines within the confines of a racetrack licensed under this chapter, the following rules shall apply:

(1) a. As to each racetrack so licensed by the Director of the State Lottery Office, the licensee shall, at a minimum, subject to the availability of racing stock, force majeure, casualty, and other circumstances beyond the reasonable control of the licensee, conduct live harness horse races on:

1. At least 80 days if the licensee conducted more than 40 days of live harness horse races during 1992, or
2. At least 60 days if the licensee conducted 40 or fewer days of live harness horse races during 1992.

b. The obligation set forth in paragraph a. of this subsection to increase the number of days upon which live harness horse races must be conducted shall be contingent upon:

1. The licensee receiving the necessary approvals from the Commission and any approvals required from the contracted horsemen's association to conduct year-round inbound and outbound simulcasting,
2. The licensees continuing to be licensed under Chapter 48 of Title 29 as a video lottery agent, and
3. No authorization of any increase in the number of video lottery agents.

c. Each licensee shall also employ during the live racing operations a minimum of 50 additional employees than the average daily number employed during the most recent racing meet held prior to July 16, 1994. The licensee's continued failure to substantially comply with this requirement after notice from the Director shall be grounds for revocation or suspension of the video lottery agent's license.

(2) An amount calculated pursuant to § 4815(b)(4) of Title 29 shall be added to the purses for the races to be held at the licensee's racetrack. The allocation of said sums among the races to be held at the licensee's racetrack shall be in accordance with contracts currently in force with the Horsemen's Association recognized for purposes related to the allocation of purses, if applicable; provided, that all such sums shall have been allocated no later than the end of the calendar year immediately following the calendar year of receipt of said sums by the licensee.

§ 10053. License to conduct pools; application; qualifications.

(a) The Commission may grant a license to any person to make, conduct and sell pools by the use of pari-mutuel machines or totalizators and to make, conduct and sell pools for the "daily double" by manual computation without the use of pari-mutuel machines or totalizators for the purpose of receiving wagers or bets on harness horse races within the enclosure of any harness horse racing meet licensed and conducted under this chapter, but not otherwise, under such regulations as the Commission prescribes.

(b) The Commission may prescribe regulations governing the granting of applications for licenses, the granting of licenses and the conditions under which any licensee may conduct, sell or make any such pool.

(c) The qualifications of any licensee shall be such as to afford a reasonable belief that the licensee will be financially responsible and will conduct the business of operating the pools in a proper and orderly manner. A licensee to make, conduct and sell such pools shall be a person licensed to conduct a harness horse racing meet under this chapter.

If any person refuses to obey any subpoena or to testify or to produce any books, papers or documents, then the Commission may apply to the Superior Court of the county in which it is sitting and thereupon the Court shall issue its subpoena requiring the person to appear and testify, or to produce the books, papers and documents before the Commission. Any person failing to obey or refusing to obey a subpoena of the Court is guilty of contempt of court and shall be punished accordingly. False swearing on the part of any witness shall be deemed perjury and shall be punished as such.

(45 Del. Laws, c. 303, § 15; 28 Del. C. 1953, § 554; 66 Del. Laws, c. 303, § 261(a).)

§ 10056. Tax on pari-mutuel and totalizator pools; special fund.

(a) Every person engaged in the business of conducting a harness racing meet under this chapter shall pay as a tax to this State an amount equal to $\frac{3}{4}$ of 1 percent of the total contributions to all pari-mutuel and totalizator pools conducted or made on each racing day prior to January 1, 1981, on any and every racetrack licensed under this chapter and on all races that day at such tracks during any such day when a pari-mutuel racing meet (not including daytime thoroughbred racing) is being conducted outside this State within 75 miles of such person's harness racing meet.

(b) Every person engaged in the business of conducting a harness racing meet under this chapter shall pay as a tax to this State a percentage of the total contributions to all pari-mutuel and totalizator pools conducted or made on each racing day prior to January 1, 1981, on any and every racetrack licensed under this chapter and on all races that day at such track during any such day when no pari-mutuel racing meet (not including daytime thoroughbred racing) is being conducted within 75 miles of such person's harness racing meet.

The percentage of such pari-mutuel and totalizator pools to be paid as such tax shall be as follows:

- (1) Three-quarters of 1 percent of the first \$400,000 of daily contributions to such pools or any portion thereof; plus
- (2) Three percent of daily contributions to such pools in excess of \$400,000 up to \$600,000; plus
- (3) Five and one-half percent of daily contributions to such pools in excess of \$600,000.

(c) On each racing day to which subsection (b) of this section is applicable when the total contributions to all pari-mutuel and totalizator pools conducted or made at any racetrack licensed under this chapter exceed \$400,000, every person engaged in the business of conducting a racing meet under this chapter shall pay as an additional tax to this State:

(1) Two percent of the total contributions to all pari-mutuel and totalizator pools conducted or made on each racing day on any and every racetrack licensed under this chapter where the patron is required to select 2 or more horses in a single race having a field of 8 or less horses declared "in to go" by the track judges or where the patron is required to select 2 or more horses in more than 1 race where all of such races have a field of 8 or less horses declared "in to go" by the track judges.

(2) Four percent of the total contributions to all pari-mutuel and totalizator pools conducted or made on each racing day on any and every racetrack licensed under this chapter where the patron is required to select 2 or more horses in a single race having a field of 9 or more horses declared "in to go" by the track judges or where the patron is required to select 2 or more horses in more than 1 race where either 1 or more of such races has a field of 9 or more horses declared "in to go" by the track judges.

(3) One half of the odd cents of all redistributions to be made on pari-mutuel or totalizator pool contributions exceeding the sum equal to the lowest multiple of 10, such odd cents to be calculated on the basis of each dollar wagered. If a minus pool is created, the break shall be to the lowest multiple of 5.

(d) The State Treasurer shall deposit the money received pursuant to subsections (a), (b) and (c) of this section in the General Fund of this State. In addition (except as hereinafter provided), every person engaged in the business of conducting a harness race meet under this chapter shall pay an amount equal to $\frac{1}{2}$ of 1 percent of all contributions to all pari-mutuel and totalizator pools conducted or made on any and every racetrack licensed under this chapter and every race at such track, and the State Treasurer shall deposit such amount to a special fund called the "Delaware Standardbred Development Fund." All fees received pursuant to §§ 564(b) and 567 of Title 28 shall also be deposited to said special fund. Said special fund shall be administered pursuant to subchapter V of Chapter 5 of Title 28.
